Merritt Sugar Case Stricken From Records

On motion of Asst. U. S. Atty. Dickson in U. S. District Judge Trippett's court yesterday, the case of the United States against Merritt, the Pasadena millionaire, was stricken from the records. The case was brought by a jury of 12 men, who found Merritt guilty of 150 pounds of sugar, and sentenced him to pay a fine of \$1000 and to serve five months in the County Jail, was stricken from the records.

The action was taken on the recommendation of Atty. Gen. Clegg, who said that the case was a "technicality" and that the case should be stricken from the records.

The case was brought by a jury of 12 men, who found Merritt guilty of 150 pounds of sugar, and sentenced him to pay a fine of \$1000 and to serve five months in the County Jail, was stricken from the records.

Polish Insurgent Leader Says His Country

Wants Peace, but Will Battle.

INSURGENT HEADQUARTERS IN UPPER SILENSIA, May 25.

Adolf Korfanty, commander of the Polish insurgent forces in Upper Silesia, in a statement tonight declared the Poles do not want a war with Germany, saying they have risen against Prussian rule in their own land.

"We are sorry that German troops invaded Upper Silesia," he said. "We have documentary evidence that the majority of German volunteers were transported into the plebeian territory from the interior of Germany, where they were equipped with heavy guns and other war materials."

"German regular army officers and noncommissioned officers were to the backbone of the attackers, who are equipped with trench helmets, machine rifles and machine guns."

"I have taken the lead in the insurrection in order to prevent Bolshevism and anarchy from developing."

"Though entire official Poland is backing us, the government wishes to avoid war with Germany. Neither do we wish such a war. We have risen against Prussian rule imposed on a genuinely Polish land."

"Our miners, factory hands, farmers and business men want to be masters in their own land, which Prussian militarism and capitalism has exploited for centuries."

"We are ready to liquidate the insurrection the moment the Allies secure the population against German revenge."

PROTECT YOURSELF AGAINST The Carelessness of Others

Auto who cross busy streets between corners or disregard intersections are jokingly called Jay-Walkers. Would you care hit one, he's just as liable as not to file a damage suit.

If you have the right kind of automobile insurance, covered personal injury to others, you are free from worry on this score. If you should injure some person, the insurance company will adjust any liability.

We write all forms of automobile insurance.

SABOTAGE ON BOARD VESSEL.

Air Pumps of Steamer Are Tamped With.

Salt Water Admitted to Boilers and Tanks.

Full Service is Restored by Matson Line.

(BY A. P. NIGHT WIRE.)

SEATTLE, May 25.—Air pumps aboard the steamer Admiral Watson bound from Seattle to Alaskan ports, were tampered with during the voyage north, and salt water was allowed to enter the boilers and fresh water tanks, delaying the vessel forty-eight hours, according to a message from Capt. Charles Glasscock, master of the Watson, to the Pacific Steamship Company, owners of the liner, today.

The Watson, which left Seattle last Thursday, arrived in Ketchikan late last night.

One member of the crew said to have been found tampering with the vessel's machinery was put ashore at Ketchikan, the message stated.

NORMAL SERVICE RESTORED.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, May 25.—The Pacific American Steamship Association announced today that normal service was restored today on the Watson line with the sailing of the Manoa for Honolulu, but the Marine Engineers' Beneficial Association disputed this, saying the Matson company still had the Enterprise.

Lurline and Maui tied up here on account of the marine strike.

To a statement by the steamship association that the China, which was operating under normal schedule, the engineers replied that the Farragut, Senator, Admiral Nicholson and Admiral Sebree were still at their docks here.

REGULATIONS MODIFIED.

(BY A. P. NIGHT WIRE.)

NEW YORK, May 25.—The wage and working rules committee of the American Steamship Owners' Association today modified certain regulations relating to duty aboard ship which had been laid down by the operators in their negotiations with the union.

The association stood firm in its determination to cut wages 15 per cent and not to sign any more agreements with seagoing unions.

The modifications will be presented by Secretary David F. Fry, general manager Winthrop L. Marvin said.

Exhibits tending to show the policy of the railroad industry in laying off thousands of shop workers was unjustified and uneconomical were presented by the union.

P. E. Crowley, vice-president, and general manager in charge of operations of the New York Central, today denied the action in laying off shop workers was part of a conspiracy to bring about a reduction in wages.

Wages of \$600 cloth hat workers were reduced 10 per cent by a board of arbitration.

REFUSE RESPEE CUT.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, May 25.—Shop supervisory forces of the Southern Pacific, who took under advisement yesterday the company's proposal for a 20 per cent reduction in wages, today submitted a written refusal.

Signal foremen and signal inspectors also declined to accept the reduction. All classes of company employees have taken the same stand except the train dispatchers, whose conference with the company will take place May 28.

BOTH HOUSES WORKING ON SOLDIERS' RELIEF.

HOUSE BILL PROMPT PASSAGE URGED BY COMMERCE COMMITTEE.

(EXCLUSIVE DISPATCH.)

WASHINGTON, May 25.—The House Committee on Interstate and Foreign Commerce today voted to urge prompt passage of the Sweet bill designed to carry out the recommendations of the Dawes commission for the consolidation of the various governmental agencies having to do with soldiers' relief.

Meanwhile the Senate is going ahead with the Kenyon bill introduced by the administration, creating a department of public welfare under which all the various agencies dealing with World War veterans would be consolidated. That part of the Kenyon bill which deals with soldiers' relief is much the same as the provisions of the Sweet bill, so there is little chance of friction between the two houses over the measure.

Neither bill contemplates the creation of a director responsible directly to the President. This was one of the recommendations most emphasized by the Dawes commission. The House bill would place the veterans' bureau under the Treasury Department, while the Senate would place it under the proposed new department of public welfare.

TRANS-JORDANIANS WIN HOT BATTLE.

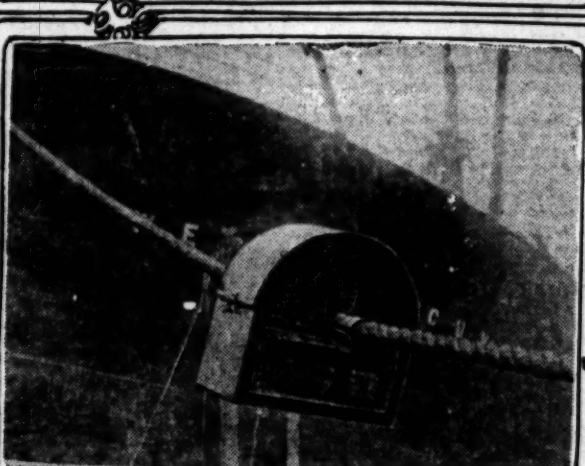

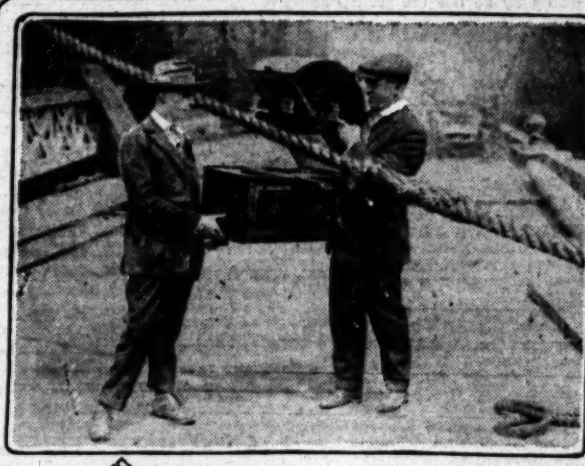

(BY CABLE AND ASSOCIATED PRESS.)

JERUSALEM, May 24.—The inhabitants of trans-Jordan are reported to have risen in revolt against their appointed ruler, Prince Zeid, third son of the King of the Hedjaz, and to have defeated the British forces in a fierce battle, killing 100 of his men.

The insurrectionists, it is said, declared to be governed by the British administration in Palestine under Sir Herbert Samuel, the high commissioner.

CATCH RATS: QUITTING SHIP.

New Device Being Tried Out in East.

Warring Against Plague.

The sanitary hawser trap shown here is designed not only to prevent rats from boarding or leaving ships—so the ordinary hawser guards do—but also to catch them in their attempts to travel. It was invented by David G. Honan of New York (shown on left above) after two years of experimentation. The man assisting Mr. Honan to adjust the trap is G. A. Finn, a business associate. Any public health officer can hand out reams and columns of statistics showing the disease spread by rats and the damage loss to property.

JAP DIET MEMBERS ARRIVE IN BAY CITY.

HERE TO STUDY IMMIGRATION AND ECONOMIC CONDITIONS.

(BY A. P. DAY WIRE.)

SAN FRANCISCO, May 25.—Two missions of distinguished Japanese, one made up of members of the Diet and the other consisting of Admiral Baron Solokichi Uriu and his party, arrived here today on the steamer Shinyo Maru to study immigration, economic and other conditions in the United States. Japanese government officials here announced for Admiral Uriu that the principal purpose of his visit was to attend the annual reunion of the class of 1911 at Annapolis Naval Academy, of which he was a member.

A delegation from the Japanese Consulate and the Japanese Association of America was present, together with civic and other officials, to greet the mission.

The Diet party is led by Rokuro Nakanishi and is made up of representatives of the four political parties of Japan. This mission will remain here until Saturday when it will visit Sacramento, Walnut Grove and Florin. Marysville will be visited on May 29 and Stockton on May 30. Returning to San Francisco May 31, the mission will visit San Jose May 21; Turlock, Livingston and Fresno, June 1 and Visalia and Hanford, June 2. The party will leave Fresno for Los Angeles on June 3.

BIBLE "MAN" MEANS WOMAN.

(BY A. P. DAY WIRE.)

GREENFIELD, May 25.—The word "man" in the Bible does not mean merely man. It is a generic term, and as such includes woman-kind as well. This decision was reached yesterday by the ninety-first general assembly of the Cumberland Presbyterian Church, in session here, which decreed through the adoption of a minority report that women also are eligible for ordination as ministers of the church.

Chronic Constipation.

This condition is usually brought on by neglect. Neglect to drink as much water as a healthy person requires, which is three pints each day, tends to take enough exercise to keep the body in a healthy condition. Neglect to establish a regular habit of having the bowels move once each day, whether there is an inclination or not, it is objectionable to take enough exercise to keep the body in a healthy condition. Chamberlain's Tablets are excellent, but will not cure you permanently when these neglects are persisted in. Begin now. Get well and stay well.—(Advertisement.)

The World-Renowned DUO-ART Reproducing Piano

In all musical history there has never been a reproducing action that has achieved such signal honors or won such universal commendation as the wonderful Duo-Art Reproducing Piano.

It is the only reproducing unit with which the distinguished Steinway Piano may be embodied. Realizing the importance of having a reproducing mechanism that fully measures up to the high Steinway standards, Steinway & Sons choose the Duo-Art as the one most worthy to be embodied in their celebrated instrument.

Another significant tribute to the unquestioned supremacy of the Duo-Art, lies in the fact that the world's greatest artists, including Paderewski, Hofmann, Bauer, Busoni, Cortot, Friedman, Gana, Gablewicz, Gruninger, Norvick and many others, record their playing for the Duo-Art exclusively.

In addition to the Steinway, the Duo-Art may be obtained in famous Weber, Steck, Wheelock and Stroud models, both upright and grand.

DEMAREE BURNS
TIGERS SLOWLY.

Leisurely Pitches His Way
to a Victory.

Ninth Inning Rally Fizzes
Gently Away.

Sawyer Shows Up in a High-
Powered Disguise.

BY HARRY A. WILLIAMS.

AL DEMAREE WAS AS LEISURELY IN

the ninth inning yesterday as a

leisurely pitcher in the fourth

round. He made haste he might

have encountered the usual waste.

Mr. Demaree's time will last

as long as eternity holds out, which

is about the same hour that per-

petual motion will stop after it has

been discovered and cranked up. So

he didn't hurry in that nerve-

tingling ninth. Instead he added

and fused and monkeyed and an-

noyed the Tigers out of a tied score,

or possible victory. In this inning

he pitched more to first base than

he did to the plate, which is a good

way to avoid the batter.

TO BE LIMITED.

Close to 200 entrants are ex-

pected by the tournament com-

mittee, but the nights will be limited

to ten with one of the hand-

some of the entire party starting

with a very high-powered banquet

at the Mill Creek route, ac-

cording to reports of road crews

who have been in the road-

work, the highways will be in ex-

cellent shape all the way through.

All car drivers entered in the run

will meet at the Auto Club to-

morrow night to draw for starting po-

sitions for the first round. The

parade will start from Exposition Park

at 7 o'clock Saturday, and will

step into Big Bear via Victorville

and way points of the return will be

made via the Mill Creek route.

San Gabriel Club to Hold an
Invitation Session.

Fred Barber Turns in Best
Card Thus Far.

Practice rounds at San Gabriel

this week have only served to

strengthen the conviction that

there will be mighty few top-notch

scores registered in the four-day

invitation tourney which starts to-

day, with a qualifying round over

eighteen holes.

Perhaps the best of the cards

turned in is to the credit of youth-

ful Fred Barber, 19-year-old city

champion, Monday he reported that

he had rounded his first trial of the

course in 18 and the second try in

the afternoon brought him a 73.

The course record for amateurs is

74, held by C. E. Smith. Barber's

figures would break this mark,

but as temporary greens were in use

as well as temporary tees for some

holes, they mean nothing other than

that Barber may make some of the

boys sit up and take notice.

IS TAKEN UP.

Elmer Elmer has waged

that he will break 80 in the qual-

ifying round, and Elmer will be in

use of the iron man, has taken him up.

On any other course it would be a mor-

tal sin for Barber to bust two to

mark, but San Gabriel is different.

Some of the boys don't believe it,

but they will after tomorrow.

The second hole will be fifty

yards harder to get to today, for

the clubhouse will be in use

will be just that much further back

of the old sand tee, making it con-

siderable easier to land in the wash

than heretofore.

KEGERIS ALMOST DOES IT.

Ray Kegeris failed to win the world's record for the 100-yard backstroke last night at the L.A.C. swimming carnival. He was second, losing to the champion, the phenominal swimmer, who splashed off the start in 1:08. The record being 1:05. Kegeris, a young fellow from Hollywood, took second in the 100-yard backstroke, with a time of 1:08.15. He looks as though it is a question of time before Fred Kegeris, with his easy arm action and powerful kick, can set a new record.

The record a tumble. The program in the Athletic Club included a variety of events. The 100-yard backstroke was won by the man who also won at several stunts. The best time made during the 100-yard swim for the 100-yard backstroke was 1:08.15, won by Kegeris. He was second in the 100-yard backstroke, with a time of 1:08.15. spin, for he maintained an almost uniform speed throughout the four laps. He negotiated the ten miles in 5:57:34. De Palma holds the lap record for the year, as well as establishing the track record on the Indianapolis Speedway for a single lap by a car of 153-cubic-inch piston displacement.

NINE QUALIFY.

Nine pilots qualified easily, leaving a field of fourteen to fight for second-rate positions in the last opportunity qualifications to be held Friday afternoon.

The speedsters' procession will be led by Harry Stutz and Barney Oldfield, the master driver, who will set the pace in a Stutz pace car. Barney was official pacer last year, and Stutz holds the record for the 100-mile race.

SAILORS WILL DANCE.

Members of the crew of U.S.S. Idaho will give their second annual ball and reception on Friday night, June 3, in the Ambassador Hotel. There will be dancing from 9 until 1 o'clock.

New Organization, Taking Full Control, Turns Prices Back Three Years

The last step in the Maxwell reorganization was the sale of the Maxwell properties to the new and powerful organization, May 12.

The first step of the new organization was to raise the value of the good Maxwell still higher, by restoring prices to the former low level of 1918.

The reduction is \$150 on each of the four models, effective at once.

This is the second price revision made by the new organization, and the total reduction from the high level, since May 26, 1920, has been \$310 on open cars and \$350 on closed cars.

The new organization now owns the great Maxwell plants outright. Its way is clear to carry out in full its larger plans and policies.

Whichever itself never to stop working for the further betterment of the good Maxwell, and for the greater satisfaction of present and future owners of this good car.

the twelfth and got a glorious three at the fourteenth for a three hole lead, and then defended his position against an opponent doing all he could to stare off defeat. Not until the seventeenth hole did Darwin pass into the select coterie of golfers known as "the last eight."

Whatever the surprises the early rounds produced, they thus were overshadowed today by sensational elimination of Jones and Tolley, respectively, regarded before this morning as the stalwarts most likely to meet in the semifinals.

Cyril Tolley, the British champion, went down before a little known player in J. B. Bedard of Pennsylvania, 3 and 2, in the fourth round. Tolley was never up during the round. He was one down at the turn and lost the tenth. Twice he was bunkered before reaching the sixteenth two down, and found another bunker at the seventeenth, where the match ended.

AWFUL BEATING.

Allan Graham, who defeated Bobby Jones, 4 and 5, in the same round, bears a great golfing name, being a brother of the late Jack Graham, one of the most stylish of all golfers.

Jones last night said he did not feel at all like golfing and seemed to have a grim foreboding of what lay in store for him. At the same time it was a terrific shock to see him beaten at the thirteenth green by so wide a margin.

FOURTH ROUND. Dr. Paul Hunter, Los Angeles, defeated F. B. Hunter, 4 and 5, in the fourth round. Hunter was never up during the round. He was one down at the turn and lost the tenth. Twice he was bunkered before reaching the sixteenth two down, and found another bunker at the seventeenth, where the match ended.

disaster than a speed trap on the Ridge Route. He was chased up and down, and hit on the tail light with the ball. The ball was removed and the pursuit resumed. Mr. Smith was doomed and he knew it, but he delayed the finish as long as possible.

STILL ON THIRD.

When it finally came and the bee was placed on him by Bill Stumpf, Hannah was still holding third, the same as a guy who knows when he has a good thing. Truck is built for power rather than speed, and nobody yet has been able to move a base out from under him until he got good and ready. Dallas Locker then fished for a wide one for the third strike, registering the second out.

This was surprising, for Dallas doesn't hit at enough bad ones to ever win a job as an egg-beater in a restaurant. But this is the fishing season, and his eye failed him. Or Artist Alf's beautiful curves corrupted him. By this time Hannah had squatted on third base long enough to prove up on it. But he decided to move, and came home when Stumpf took Ray French's grounder and pulled Murphy off the base.

AT IT AGAIN.

Thus the situation was made all over again, and Demaree resumed pitching to first base. But it was wasted energy. Ray not getting far enough away to insert a wedge of daylight between him and the bag. Ham Harty was sent in to bat for Gorman. Watching the ball travel to first so often got his eyes out of focus, and he popped out leftily to Tex Wister. Anyway, Ham has rheumatism, and this isn't a rheumatic league.

Reverting to the first inning, Wister and Murphy are found in the act of passing singles. Eldred followed with a tricky bouncer to Shellenback, and beat it out. Frank went through with the throw, and it was a wide one, letting in two runs and putting Eldred on third, whence he scored on Kenworthy's sacrifice fly. With this and two doubles, the Muxated Duke had a big day.

Vernon gave Demaree a couple of swift kicks in the second for two runs. Locker forced Smith, who had walked, and took third on French's double. Gorman walked, filling the bases. Shellenback forced Gorman, Wister to Kenworthy, and the Duke threw to first for a close decision in a near double play. Umpire Casey's arm went up like a tin traffic sign on Broadway, and then dropped like the same sign. Thus he automatically reversed himself, and became a human semaphor. Locker scored on the play, and Edgington singled French across. High slid. Kenworthy doubled Murphy in with Seattle's last run in the third.

Carl Sawyer deceived all those present by appearing in a linen duster and long white whiskers, and wearing a pair of crutches. At the gate he refused to dig up, and was overpowered by the guards, who were baffled by the soup-strainers. Sawyer then hobbled out and inspected the home plate. He reported it the only dirty spot in town, which is discouraging. In a few days he expects to take his ankle out of the plaster cast, and pack it away in a cotton sock. The sock, if worn continuously, should become strong enough to support the ankle.

Another fan breezed in from the beach in an airplane, which proves that there are flying fish. The scores:

SWIMMING MATCHES ARE SET FOR MAY 28.

In spite of many rumors to the contrary, the Southern California interscholastic swimming championships will be held in Pasadena High's pool May 28. It has been announced by Thomas E. Hughes, president of the southern section of the C.I.F. The meet will be held under the auspices of Cecil F. Martin, director of physical education at Pasadena.

Due to the large number of contestants, preliminary heats will be staged in the morning, and the finals will take place in the afternoon.

DALE WINTER IN CAST.

INTEREST TO CENTER ON
LEAD IN "IRENE."

By Grace Kingsley.

Upon deciding to send an "Irene" company west, a few weeks ago, the eastern theatrical powers in charge made up their minds, according to reliable information just received, to select from the companies playing runs outside of New York, in cities like Chicago, Boston, Philadelphia, etc., the best players in the make up of the western company.

Dale Winter, who had a long season in the leading role of the musical comedy in Chicago, will therefore appear in the name part here, when the play comes to the Mason, June 6. Miss Winter has an interesting history, beside being a lovely young woman with a very beautiful throat and a lovely smile.

She is the widow of Jim Colosimo, an Italian ward leader and proprietor of a well-known cafe in Chicago.

Miss Winter was a singer in Colosimo's cafe, and while it is implied that some picturesquely Bohemian incidents took place there, Colosimo was always ready to protect Miss Winter from seeing or hearing anything which a young lady from a fine family should see or hear.

The two became engaged and were married in the course of a few weeks. But within a fortnight after the marriage, about a year and a half ago, Colosimo was slain in his own cafe while eating his dinner, presumably by members of a whisky ring.

His widow refused to accept any part of Colosimo's fortune, for some mysterious reason of her own. She disappeared from public view, but something like a year ago, an agent in a theatrical building in New York heard a woman's voice singing in the next office. He was so charmed that he went in to see who the voice might be, and discovered the singer to be Dale Winter.

He at once offered her a position on the stage, and she was placed in "Irene," but with no authority at the time regarding her life story. It wasn't until some months afterward that the facts of her life came out. Her success in "Irene" was instantaneous.

Other players who will please Mason patrons, and who come from the four eastern companies, are Jere Delaney of the Chicago company, Lucy Erica Mackay, Henry Cootie and Flora Moore.

Majestic Note.

If ever "Turn to the Right" stops running, "Parlor, Bedroom and Bath" will go on. The piece is now in rehearsal under direction of Addison Pitt.

Nellie Signs Another.

It looks as if Marshall Nellie was going to have quite a collection of eminent authors of his own. Having signed up George Ade and Donnell Byrne, now we are told that a third notable affiliation with a prominent writer has been made in the person of Hugh Wiley of the Los Angeles Evening Post fame. He has already started work on one of the new plays which will produce for First National.

Donnell Byrne will collaborate with Marshall Nellie on a new version of his book, "The Stranger's Quest."

Did Him Good.

Maybe some time pictures will be an integral part of the cure administered at the hospital patients. In the meantime James Corrigan can testify to the health-producing effect of "Peck's Bad Boy."

Mr. Corrigan, who played the part of the father in the picture, a little Jackie Coogan, has been ill in the hospital during the past few weeks, and the other night Sam Wood, the director of the picture, took the print along with a projection machine and screen over to the hospital and showed it to Corrigan. Mrs. Corrigan declares that her husband began to pick up from that minute, but she accuses him of laughing shamelessly at his own monkey-shines.

Philip Ryder as Mikado.

One of the distinguished members of the California Opera company, playing "The Mikado" at the Mason this week, is Philip Ryder, who is of wide reputation as a singer of comic opera roles. Mr. Ryder is now the role of the Mikado next week.

Mr. Ryder was formerly a singer of prominent roles in Klaw and Erlanger, in Singfield, Comstock and Coburn and Harris productions, and for four years was stage director for Ned Weyburn in New York.

Social Note.

Arlene Pretty is visiting Leah Beale, who is about to be married. She expects to start work shortly as member of an all-star cast in a big feature picture.

Collette Forbes Engaged.

Now the English beauties are doing it. I mean the musical comedy stars are leaving to play pictures, so that it's getting to be quite a common saying, "Yes, she has a beautiful voice; she's gone into pictures."

The latest English beauty to attack pictures is Collette Forbes, who comes with the recommendation that she sang continuously for six years in London in "The Maid of the Mountain," a musical comedy. She has just finished a lead with William B. Hart, and yesterday she was in a new picture in which he will shortly commence work.

If It Excites You to Know It—

Walter Heira, fat Reelart comedian, left yesterday for a two weeks' personal appearance tour of the theaters throughout the South.

Mr. and Mrs. George Randolph Chester, the authors are planning to leave for New York at the end of the week with the negative of their personally directed special feature, "The Son of Wallingford."

Jane Connelly, whose work as a headline attraction in the Keith and Orpheum theaters caused critics to term her the Maude Adams of vaudeville, is the latest footlight favorite to succumb to the lure of the motion picture. Houdini, who is now starring at the head of his own company, has selected her for his leading woman in "The Far North."

Scandals and Otherwise of Vaud.

Dora Ford of the famous Ford sisters, dancers, who are en route on the Orpheum, has obtained her divorce from George Emerson of Emerson and Baldwin. Dora gets the child.

Henry Stanley and Anna Seymour of the Seymour, all Orpheumites, were married last week. That makes the score even. Everyone expected

STARS ON HORIZON.

MANY OF THEM TO VISIT NEXT
FALL IN STAGE PLAYS.

By Edwin Schullert.

Begins to look as though the star system were coming into vogue again on the stage, from the advance gleanings as to who will visit the Coast next season. For the list of names is large thus far, while the schedule of shows is short—what's to say, shows that haven't bright names attached.

The exhibition of music on the fall program, according to Manager Will Wyatt of the Mason, are, for instance, George Arliss in his new play and possibly a revival of "Diarrhea" or "The Devil," Billie Burke, who is shortly to return to the stage, and an audience of prominent lights from the films, in a new show; David Warfield, Ethel Barrymore, Chauncey Olcott, Otto Reinher, Henry Miller, Blanche Bates, Fay Bainter and a lot more.

Incidentally the Mason will probably hold open house for local shows during the summer, because there have been quite a few cancellations. However, a visit of some unusualness is assured in the engagement of Ruth Chatterton in the new Burlesque play, "Marie Rose," which will play here the end of June.

The Morocco Ransom.

Yet again do we hear rumors of Oliver Morosco's early return to Los Angeles. Miss Marshall is greatly devoted to the outdoors. She delights in long mountain hikes and swimming, and has also taken a course in dancing.

At least, it is pretty certain that Morosco, he is about to return to the city of going abroad, which makes it likely that he will return to the city in a few months.

Two weeks hence.

As soon as he arrives here, there is considerable hope for some new play premieres. But until the dollar rate rises, or whatever you like.

Hiers on Tour.

Walter Hiers is touring. And vacationing. Incidentally, that is, he's gone back to the old home town in Cordoba, Ga., to see how much fame he's acquired since his departure and while on the way will visit larger theaters and make personal appearances.

Among the places he will visit in the capacity of a personal appearance are Atlanta, Chattanooga and Memphis.

His vacation will consequently be rather a busy one.

A Feminine Hamlet.

New York is soon to have a "Hamlet" of the feminine gender. Namely, Bertha Kalich, who has been highly regarded as a personality of the drama, and whose last engagement was in "The Riddle Woman." She is to give a series of matinee performances of the Shakespearean work.

Nor is this the first time that she has played the role in New York. She was seen in "Hamlet" on the Bowers some fifteen years ago. At the same time Sarah Bernhardt included the tragedy in her French repertoire.

More Shakespeare.

Charles Smiley, who was seen here during the winter in Shakespearean repertoire, with Robert Mantel, has been engaged to play the role of Trinculo in the outdoor production of Shakespeare's "Tempest" in the Hollywood Bowl. Mr. Smiley was formerly in the company with Sir Henry Irving in London.

John MacFarlane is to appear as Prospero, while Florence Laughead is to portray Miranda in the production.

REHEARSALS ARE DAILY IN PROGRESS FOR THIS EVENT.

George Baban is to make four personal appearances daily in his dramatic sketch, "The Sign of the Cross," during the remainder of the week, at the Kinema Theater. Mr. Baban's son, nicknamed "Bob White" Baban, is to join his father on the stage Thursday and Friday at the matinee appearances are in connection with his picture, "One Man in a Million," which is having a run of success.

Recital Postponed.

The vocal recital to have been given by William Hoffman at the Ambassador Hotel, last Sunday evening, has been postponed indefinitely.

"Kentucky Colonel" Again.

The last generation of boys and girls read Ople Read's novels, and the present one visualizes them. Will they survive to a third generation? If so, in what form will they be presented, and will the heirs of the author have any chance to collect royalties? These interesting problems are suggested by "The Kentucky Colonel," in which Joseph Dowling is starred this week at the Broadway Follies.

There is a rifle behind every rock and a meachiner under every bush in "The Kentucky Colonel," and the sterling words and primitive virtues of the mountaineer are quoted at par and over, with compound interest since he's de wab.

"The Kentucky Colonel" is all right, however, provided it is not mistaken for a serious historical document.

"The Tom Cat," which is Oklahoma Bob Albright's contribution to the week's merriment, cannot possibly be taken seriously. And this is one of its virtues, if not the only one.

"Able Cohn" is very much married. So much so, indeed, that his friends call him "the tame cat." Able's friend, Prof. Nitty, being somewhat deaf, mistakes the name and calls Able the "tom cat." Inspired by the name, perhaps, Able decides to rule his own back fence, and does a modern Petrucchio in a way that would make Shakespeare and his friends rewrite all their shrew comedies.

Oklahoma Bob Albright promises to sing at every show this week. He gave yesterday's audience Victor Herbert's song, "I'm Falling in Love."

Reading Hour Series.

The Ida M. Leonard series of reading hours for lovers of literature, by a program of new verse, the selections covered a wide field, and called for emotional and dramatic expression, plus delicate humor. Her rendition of Grace A. Dennis' "By the Sea" was especially marked by intense dramatic feeling. Miss Leonard is a Los Angeles woman, editor of the Lyric West and president of the Verse Writers' Club. Other local writers represented on Miss Leonard's program were Ethel Brooks Sullivan and Ethel Hall.

Harry Caulfield Improvises.

Harry Caulfield will leave Friday for New York, carrying with him the first of the Lincoln (Chubby) Steadman comedies, "In Wrong."

Even though it is Friday, and the comedy has such an Indian-sign name, Mr. Caulfield says he doesn't feel nervous about making the trip.

PLAYS WONDER GIRL.

Talented Beauty Soon to Appear in Film Production.

Selected from many applicants for the role, Marion Marshall, noted for her qualifications as an artist's model and an actress, is shortly to appear in the title role of a new film production, "The Wonder Girl," made by the Wondergraf Productions. She is the daughter of William R. Marshall, prominent as an advertising and a clubman in this city. She was chosen because of her beauty and vivacity.

For a time Miss Marshall's ambitions were divided between theatrical and an artist's career. Finally she decided on the latter, and entered the Art Institute in Chicago with a view to perfecting her talents. As a pupil of Mattia van de Pool she displayed marked ability, but was forced to give up her work on account of ill health.

This circumstance caused her to come to California, where she interested herself in motion pictures.

Not long after her arrival the question of a choice for the star part in the "Wonder Girl" production arose, and Miss Marshall was among the applicants. Her chic attractiveness easily won her the role. The picture was filmed under the direction of Charles J. Wilson, Jr.

Miss Marshall is greatly devoted to the outdoors. She delights in long mountain hikes and swimming, and has also taken a course in dancing.

She also gives a large part of her spare time to reading and study, for it is her contention that you have to set off a developed physique with a developed mentality, she declares.

"Oh, yes, she is beautiful, but upstairs nothing doing."

FOR BASE COMMANDER.

Dance Will Be Given in Honor of Capt. and Mrs. Shackford.

The officers and men of submarine division 4, Submarine Base, Los Angeles Harbor, will give a dance to-morrow night in honor of Capt. and Mrs. Chauncey Shackford. Capt. Shackford soon will be relieved as commander of the base. The dance will be held at 8 o'clock at Hotel Virginia, Long Beach. Five thousand invitations have been issued.

Each person attending will be presented with a novel souvenir, a miniature submarine in brass and bronze suitable for a desk or mantel ornament. These souvenirs were struck off for the occasion exclusively of metal from the UE-43, one of the German submarines allied to the United States after the World War. The metal was taken from the UE-43 before she was sunk in target practice off this port.

MAY WORK WITH BRITAIN ON SEA.

Talk of Concentrating Whole Fleet on Pacific.

England Would Keep Armada on Atlantic Ocean.

Believed Admiral Sim's Visit Has to Do With Plan.

(EXCLUSIVE DISPATCH.)
WASHINGTON, May 25.—An informal, but none the less definite, understanding is being approached by which the entire United States Navy may be concentrated in the Pacific to guard that great theater of commerce, while the Atlantic will be policed by the fighting craft of Great Britain.

This proposed arrangement is predicted on advances made by the British government, and has received much encouragement at the hands of the new administration. Just how far it has progressed none in authority will say, but it is known that the proposal to place all the fighting craft of the United States

Navy in Pacific waters awaits only the sanction of the Secretary of State, and that this depends upon the progress of this mutual understanding between the United States and Great Britain.

CONCENTRATION OF FLEETS.
It is an axiom of the best naval strategists of our own Navy, and also those of Great Britain, that the navy is weakened in proportion to its decentralization, and such a proposal would permit the concentration of the United States Navy in the western ocean, with all of the fighting ships of Great Britain on the Atlantic, each ready for any emergency that might suddenly be precipitated. Each could protect the commerce and insure the peaceful development of the countries affected by the ocean activity.

There are in the United States Navy a great many higher officers who object to the division of the fleet, and who are anxious to have the Atlantic and Pacific fleets reunited.

CHANGED CONDITIONS.
Conditions in the Pacific and the Far East, the protection of the Philippines and the islands of Guam, Hawaii and the Territory of Alaska are such that prewar conditions will never return, and a large part of the United States Navy must remain in the Pacific to care for the growing responsibilities of the United States in oriental commerce and the development of the activities of the country outside of the continental United States.

While no confirmation from any source can be secured, some of the students of the naval movements see much significance in the present visit of Admiral Sims to the British Isles at this time, and assume that if there is a serious proposal to people the two great oceans with the fleets of English-speaking peoples that Admiral Sims's counsel and advice will be useful in bringing such a plan to a successful conclusion.

CONTRACTS AWARDED FOR STATE ROADS.

Amador county—Highway from Ione to Jackson, length not specified; contractor, W. J. Schmidt, Berkeley; bid \$85,489.50; engineers' estimate, \$65,332.20.

WILL SHE FOLLOW MOTHER'S LEAD?

Two Noted Stars Recalled by Stillman Divorce Case.

Kyle Bellew—Mrs. James Brown Potter.

Late reports that Mrs. James Stillman had received flattering offers to appear in pictures recalls to old-time theatergoers the career of her beautiful mother, Mrs. Cora Urquhart Brown Potter. Mrs. Potter, who is still living, was divorced by James Brown Potter after she had gone on the stage. For several seasons she was Bellew's leading woman and co-star and appeared in several notable plays.

STILLMAN TRUCE IS OFF.

Efforts to Settle Notorious Divorce Case Said to Have Struck Reefs.

(EXCLUSIVE DISPATCH.)
(Copyright, Chicago Tribune.)

NEW YORK, May 25.—Efforts to settle the James A. Stillman divorce case appear to have struck on the reefs tonight. The prospect now is that the present suit will be fought to the end and that the charges and counter-charges will burst forth in all their fury of publicity unless something little short of a miracle happens within the next day or two.

Plans for a settlement out of court were almost completely abandoned tonight while both sides made hurried efforts to be ready for the resumption of the secret hearings before Referee Gleason. The next sitting is on the calendar for Wednesday at Poughkeepsie.

WONT BE EXILED.
The principal reason why a settlement has not been effected is said to have been Mrs. Stillman's decided opposition to the demand of her husband that she go abroad and remain practically in exile for five years until public interest in the Stillman affair shall have subsided. Stillman's attorneys have not in-

MEMBERS OF DIET ARRIVE AT BAY CITY FOR TOUR OF AMERICA.

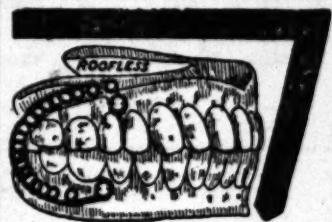

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, May 25.—Confidence that all questions of dispute between America and Japan would be settled on a basis of friendship was expressed by members of a Japanese Parliamentary committee which arrived here today from Honolulu. A tour of the United States is planned.

Admiral Baron Sotokichi Uru of the Japanese navy was leader of another party which also arrived. The party is bound for Washington, where Admiral Uru will attend the annual reunion of the class of 1881 at Annapolis Naval Academy, of which he was a member.

Rokuro Nakanishi, member of the party of statesmen, declared the committee had no real purpose in view in coming to the United States other than to get first-hand information on subjects which might affect the two countries. He made reference to an old Japanese saying that "seeing once is better than hearing 100 times." Members of the Parliamentary party, especially Mr. Nakanishi, said they were surprised to hear talk of a clash between the United States and Japan. He said this was "unthinkable" and expressed his belief that problems which might lead to armed conflict could be settled by conference.

OPPOSE WITHDRAWAL OF YANKS ON RHINE.

CONGRESS SHOULD LEAVE MATTER TO PRESIDENT, IS OPINION OF LEGION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 25.—A resolution disapproving the proposal in Congress for immediate withdrawal of American forces from Germany was adopted tonight by the National Committee on Military Policy of the American Legion. The committee went on record against the "withdrawal of American forces on the Rhine by Congressional resolution" and declared the question should be left to the discretion of the President.

The committee also took up the question of alleged discrimination against National Guard and emergency Army officers in the recent Army promotions. Members claimed that although the law provides that not less than 50 per cent of vacancies in the Army should be filled by emergency officers, "practically all appointments to emergency officers recently have been in the grades of lieutenants and captains, while all appointments of higher grades went to West Pointers."

LOCOMOTIVE PILOTS IN LIVELY DEBATE.

CLEVELAND, May 25.—The liveliest fight of the triennial convention of the Brotherhood of Locomotive Engineers developed today in debate over the renewal of the agreement between it and the Brotherhood of Locomotive Engineers and Firemen for the joint settlement of grievances between members of both organizations.

The agreement was negotiated in Chicago five years ago. The question will come up again tomorrow.

ROUGED KNEES ARE EDICT OF FASHION.

"EFFECT REALLY IS CHARMING," DECLARES FORMER HAIR DRESSER.

(BY A. P. NIGHT WIRE.)

NEW YORK, May 25.—While New York school superintendents were holding a meeting in the Commodore Hotel today and protesting short skirts of teachers, the big old town got a jolt from Dame Fashion. Sidney Brooks, former hair dresser in the Czar's palace, now manager of a Fifth-avenue beauty parlor, reports rouged knees are to be introduced.

"Some time ago women began rolling stockings below their knees," he explained, "skirts got short—mildly crosses her knees and now one has to pay attention to the knees and face. Rouged knees are the result. The idea is to begot a faint pink effect—a coat of rice powder, a touch of rouge and then a film of powder. The effect really is quite charming."

WILL FORCE CHINA'S HAND IN SHANGHAI.

JAPS PLANNING TO WITHDRAW TROOPS FROM TAIWAN.

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 25.—According to official information received here Japan is planning to take steps to compel China to begin negotiations for the recession of Shantung under the terms of the Treaty of Versailles.

Japan's program, according to this information, is to begin withdrawing the large forces of troops which have been guarding the railway from Tsinan-Fu to Kiaochow without waiting for China to comply with the original suggestion that they be replaced by Chinese troops. The Japanese belief is that, with Japanese troops withdrawn, China will be forced to send her own troops into the area, where it is said lawless bands have been operating with frequency.

If the Chinese government takes up the work, it is said here, it demonstrates its ability to protect the territory and insure safety to the port of Kiaochow, the Japanese government will take further steps of proposing that Chinese gendarmes replace the Japanese police and soldiers who have been guarding the port itself.

The Japanese viewpoint, as expressed here, is that Japan has waited two years for China to begin the negotiations for the return of Shantung and in the meantime has been under attack for her occupation of the peninsula. The new policy is framed with the expectation of bringing the subject to an issue.

Some diplomats believe that some inkling of the plan got out in Tokyo, in connection with the assembly of provincial officials, and led to the report that Japan was about to turn over all of Shantung without attempting further to induce China to open negotiations provided under the Treaty of Versailles.

DAILY TRADE TALK.

Business the Country Over; the Alfalfa Market; Shipment of Fruit by Water.

(EXCLUSIVE DISPATCH.)

CLEVELAND, May 25.—There are other indications of better business hereabouts than the steady improvement financially as shown by Federal Reserve Bank statements. More railroad cars are being loaded here than last month, more building permits were granted in April than in any other month this year and up to the time the building trade struck, some progress was being made in overcoming the shortage of lower-priced homes.

A survey of nineteen of the larger industrial plants reveals gains in employment, production and in sales. The average wage for common labor in these plants in April was 50 cents an hour, compared with 51 cents in March and 45 cents in May, 1920.

KANSAS CITY.—Manufacturers and distributors of mercantile lines continue to complain of trade. Unemployment is a factor in this, while unfavorable spring weather has also retarded retail trade, according to W. T. Kemper, president of the board of the Commerce Trust Company.

Many customers are withholding purchases of wearing apparel until actually forced by a depleted wardrobe, presumably anticipating lower prices. Mr. Kemper says, "This is true in a large measure of the retailer in his buying from the wholesaler and also is the trend of buying by the wholesaler from the manufacturer."

There is becoming noticeable a tendency on the part of the rural merchants to accumulate small stocks in anticipation of increased farm buying after the harvest, but the abnormal relationship of prices is an unremovable handicap.

Price levels are not yet sufficiently equalized to warrant the expectation of an immediate revival in agricultural and commercial lines. Many readjustments must be completed.

SEATTLE.—Grain prospects in the Pacific Northwest are found to be surprisingly excellent after a survey by State grain officials and bankers. The outlook is for a bumper crop of wheat and barley, and the whole "inland empire," consisting of the panhandle of Idaho, Eastern Washington and Eastern Oregon, would be almost a full cutting behind last year.

A wheat crop in Washington in 1920 of \$2,000,000 bushels will be duplicated this year, according to reports from the grain fields made to Seattle by millers, grain-exporting concerns. Indeed, the report shows that the 1921 acreage in the Walla Walla Valley and the Palouse country in Eastern Washington will equal that of last year.

Sixty days ago the farmers were in the doldrums with wheat selling around 57 cents a bushel at the side-track, compared with 72.50 during the boom days after the armistice. Today the price prospects are most encouraging, with the grain selling at side-track around \$1.40 per bushel, equivalent to a promise of \$1 or more per bushel to the farmer for his 1921 crop.

ST. LOUIS.—Contrasting signs of improvement and depression mark the prevailing tendencies in the St. Louis territory, in the Southwest and in the Southeast. Dullness in the other hand there has been much activity in real estate and many sales of land have been announced. Efforts to bring about wage reductions in the building trades have been futile, yet numbers of mechanics have scattered into the rural cities and towns, where, it is reported, they are working for less pay than is asked in the cities.

DETROIT.—The weekly clearing-house bank statement today shows continued liquidation of the borrowed-money obligations of the banks, the total of such liabilities

FRUIT SHIPMENTS BY WATER.
As a result of plans worked out between the United States Bureau of Markets and the Atlantic, Gulf and Pacific Steamship Company, arrangements are being made to ship the steamship Charles H. Cramp as a practical laboratory for the shipment of citrus fruits and apples from the Pacific Coast to eastern markets by way of the Panama Canal. The ship will be equipped with modern apparatus for the thorough study of problems arising from this method of transportation. It is planned to divide the cargo space into different compartments in which various sets of conditions can be produced and controlled. Records will be kept of the various conditions, including temperature, ventilation, humidity and other air conditions which are encountered. The various degrees of ventilation and refrigeration will also be studied.

Oranges, lemons and apples will be the principal fruits to be shipped to the East aboard the Charles H. Cramp. Several American steamship lines, it is stated, are interested in the economical fitting out of ships to engage in the transportation of

PRICES AGAIN DROP ON PRODUCE MARKET.

STRAWBERRIES DECLINE 50 CENTS PER CRATE; OTHER LINES ARE LOWER.

Heavy arrivals of fruits and vegetables caused a weaker feeling to predominate on the local produce market yesterday. Raisins from the country have increased sharply during the past two days, and with demand only moderate on the part of the retail trade, the price went was sharply advanced for some of the leaders. Supplies of apricots were heavy on the local market yesterday, with the result that the best stock was selling at 10 to 12 cents per pound, with some of the poorer offerings moving as low as 8 cents. Celery was weaker, good stock bringing from \$2.00 to \$2.50 per crate, as compared with 10 to 11 per crate of the preceding day. Asparagus, 2 1/2 to 3 per crate, 1 California and 2 1/2 to 3 per crate of the preceding day. Beans and chick peas moving slowly at 20 to 25 cents per bushel, as compared with 25 to 30 cents per bushel of the preceding day. String beans were about 2 cents per pound lower than last week, with a steady demand for the best stock, which were in very heavy supply. Potatoes, 10 to 12 cents per bushel, according to quality. Arrivals of strawberries from the country were heavy, and the price was 50 cents per crate lower than yesterday. Although the arrival of lettuce has been heavy, the market is still tight. Prices remain steady, with a few offerings of 10 to 12 cents per head, as compared with 11 to 12 cents per head of the preceding day. Asparagus, 2 1/2 to 3 per crate, 1 California and 2 1/2 to 3 per crate of the preceding day.

FRENCH THRIFT

The French High Commission in a statement says: "Out of an adult population of 22 million, according to latest statistics, 5 million were rural land proprietors, 1,800,000 business proprietors, 3 million were holders of railway shares or bonds and 17 million had savings accounts."

For this reason, if for no other, the current offering of 20-year non-callable 7 1/2% external gold bonds by the Government of the French Republic constitutes an unusually attractive investment opportunity.

These Bonds mature in 20 years and are not subject to redemption during that time. Principal and interest payable in New York in gold coin of the United States without deduction for French taxes, present or future.

The French Government covenants to provide \$3,000,000 per annum for five years, payable in monthly installments of \$750,000 each as a sinking fund for the purchase of these Bonds if obtainable up to par and accrued interest. We are taking subscriptions for this issue, subject to allotment.

Tropico Potteries, Inc.

Closed First Mortgage 8% Serial Gold Bonds

Each \$1000 Bond of Tropico Potteries, Inc., is secured by tangible assets of \$2500.

The bonds are a closed first mortgage on properties of the company, conservatively valued at \$750,000, or about two and a half times the amount of this \$300,000 issue.

The company is engaged in a rapidly growing business, manufacturing architectural terra cotta, faience tile, vitrified clay sewer pipe and kindred clay products, all important factors in the building industry and increasing in demand.

Present earnings of Tropico Potteries, Inc., are at the rate of six times interest charges on these bonds.

The location of the plant at Glendale, seven miles from the heart of Los Angeles, gives it unlimited scope for output of its products, and under the new management, which is of the highest calibre obtainable in the clay products field, the stability and continued growth of the enterprise are beyond question.

We offer a limited remainder of this issue subject to prior sale.

**FAMOUS LOST
MINE IS FOUND.**

Discovered by Accident After
100 Years' Search.

Millions in Silver Taken Out
by Old Spaniards.

American Gets Option on
Land and Resumes Work.

(EXCLUSIVE DISPATCH.)
NACAZARI (State of Sonora,
Mex.) May 25.—After more than
100 years of search for the famous
lost silver mine, which was worked
by the Spaniards in the vicinity of
Nacazari, the filled-in shaft of the
ancient property was recently dis-

covered. Although there is no definite
means by which the identity
of the mine may be established,
everything points to it as being the
Jucal mine, which, according to
existing records, was worked for
many years by venturesome men
from Spain, who took from its
depths several million dollars worth
of ore.

When the Spaniards were driven
out of this part of the country the
owners filled in the shaft and left
no surface trace of its location. It
is stated that all who were con-
nected with the working of the
mine at that time were killed. The
story of the very existence of the
property became almost legendary,
and but for the fact that there
were authentic written records of
its having been one of the rich-
est producers of silver in Mexico,
the long search for it would not
have been made.

It was on "the faint theory that
the fact that the color of the
ground at a particular spot was dif-
ferent from the surrounding earth
might be the marking of an old
mine shaft that the men, who
recently came upon the place, went
to work and after but little excavat-
ing found the remnants of the tim-
bers that had lined the shaft.

At the bottom of the shaft they
found two tunnels, the mouths of
which were sealed up with rocks.
These barriers were removed and
the tunnels explored. The rich vein
of silver was then discovered.
Samples were taken and assayed,
the returns showing 300 to 400
ounces to the ton.

As is not unusual in such cases an
enterprising American, E. H. De-
vora of Port Worth, Tex., was
among the first to hear of the dis-
covery of the mine, and he was suc-
cessful in obtaining an option on
purchase of it. The discovery has
caused much excitement in mining
circles here and claims have been
made for some distance around the
ancient property.

**CONGRESS OF MOTHERS
CONVENES AT OAKLAND**

MEET WITH PARENT-TEACH-
ERS ASSOCIATION TO AD-
VANCE EDUCATION.

(BY A. P. NIGHT WIRE.)
OAKLAND, May 25.—The annual
sessions of the annual Califor-
nia State Congress of Mothers and
Parent-Teacher associations here.

Mrs. Harry J. Ewing, the pres-
ident, urged greater education for
children and wider publicity of the
needs and plans of the associa-
tion. The convention dispatched a
telegram to Gov. Stephens urging
him to sign the bill calling for a
separation of deaf, dumb and blind
institutions.

The program for the day includes
a reciprocity luncheon for the out-
going and incoming presidents, with
the bay conference in the morning.
Department chairmen and district
presidents consumed the after-
noon and evening with the reports
of their year's work. Two thousand
delegates are in attendance.

Mrs. J. H. Sheehan of San Fran-
cisco, recording secretary; Mrs.
Mable W. Dore of the National
Association of Mothers, corres-
ponding secretary; Mrs. Arthur
Painter of Berkeley, financial sec-
retary; Mrs. James J. Dale of Mont-
clair, treasurer; Mrs. Blanche
Bates of San Diego, auditor; Mrs.
G. H. Goodale, Anaheim, histori-
ographer, and Mrs. Harry J.
Ewing, the state president, sub-
mitted their reports.

**POLITICAL CRISIS
IN PORTUGAL PASSES.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—The
political crisis in Portugal caused
by dissatisfaction in the Republican
Guard has passed without serious
results, according to dispatches re-
ceived today by the State Depart-
ment from the American Minister
at Lisbon.

NAVY CLERKS TO GO.

(BY A. P. NIGHT WIRE.)
VALLEJO, May 25.—Reduction of
the clerical staff of the bureau of
supplies and accounts at Mare Island
Navy Yard here on June 1 will be
necessary because of reduced ali-
ments. It was announced today.
Upward of forty clerks will be released.

**Noted Old Town

(BY A. P. NIGHT WIRE.)
FREDERICKSBURG (Va.) May
25.—Fredericksburg, probably the
second oldest city in America, and
whose history has been intimately
associated with that of the anniver-
sary of its recognition as an estab-
lished township.

Records, however, show the city
to have been the landing place of
Capt. John Smith and his adven-
turers in 1608, the year after the
settlement of Jamestown by the En-
glish.

**JAP ARRESTED FOR
BEATING UP CHILD.**

(EXCLUSIVE DISPATCH.)
NIPPONSE ATTACKS YOUNG
SON OF AMERICAN CONSUL
AT NAGOYA.

(BY CABLE AND ASSOCIATED PRESS.)
NAGOYA (Japan) May 25.—
Harry P. Hawley, American consul
here, said today his 7-year-old son,
recently injured by a Japanese while
playing in the park, was not in-
jured in the right arm as reported, but
was beaten. The Japanese, who was
arrested, is being held in the city.

The Japanese entered the consul-
ate garden and poked his finger
into the eye of the child, who was
playing with a ball. The Japanese
was beaten. The Japanese, who was
arrested, is being held in the city.

**DEMAND STIFF BONDS

(BY A. P. NIGHT WIRE.)
CHICAGO, May 25.—Bonds of
\$4,000 each were ordered for the
ten men said to be members of a la-
bor bombing ring when indictments
were returned by the grand jury to-
day.

The true bills charge criminal con-
spiracy and violation of the law in
procuring and transporting ex-
plosives.

Indictments against the indicted
men were returned by Andrew
Kerr, Albert Peterson, Joseph Bang-
more, Thomas Concoran, Sam-
uel Gibson, Charles Rodriguez, George
James, "One" Sullivan, Harry Bartlett
and James Sweeney.

**WILL INVESTIGATE
ALFALFA WEEVIL.**

(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 25.—Pursu-
ant to the request made by Ne-
vada for assistance in handling the
alfalfa weevil situation at Reno, an
agreement was reached today by
representatives of the County Horti-
cultural Commission and State De-
partment of Agriculture to visit the
infected region at an early date.

The joint committee will in-
vestigate the alfalfa weevil situa-
tion and the State quarantine officers
Hecke said.

**PRESBYTERIANS WANT
AN IMMENSE BUDGET.**

(BY A. P. NIGHT WIRE.)
ST. LOUIS, May 25.—Plans an-
nouncing an expenditure of approxi-
mately \$20,000,000 for the period of
1921-25 were introduced at the six-
tieth annual assembly of the South-
western Presbyterian Church today.

The program provides for an equipment
fund of \$5,000,000, of which foreign
missions will receive \$2,500,000 and
domestic missions \$2,500,000.

**REHEARING IS ASKED
IN ESPIONAGE ACTION.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—A peti-
tion for a rehearing of the case of
Henry Alberts, a wealthy citizen of
Portland, Ore., was filed in the Su-
preme Court today by Senator Mc-
Nary in behalf of the Oregon Bar
Association.

Alberts was convicted of violating
the Espionage Act, but the govern-
ment confessed error after his ap-
peal had been docketed in the Su-
preme Court, and the conviction was
reversed and the case remanded.

MEXICO DEPORTS ZAMAN.

(BY A. P. NIGHT WIRE.)
LAREDO (Tex.) May 25.—Immigra-
tion authorities here announced to-
day they had received information
that Frank Zaman, alias Charles
Phillips, alleged American radical,
had been deported from Mexico to
San Francisco, through the port of
Manzanillo.

**Britain Tells
Department to
Cut Estimates.**

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, May 25.—All govern-
ment departments have been in-
structed imperatively to cut the es-
timates for next year's supply ser-
vices 20 per cent.

A circular issued by the treasury
to the departments stated that as
far as can be seen the ordinary
revenue for 1922-23, even if no tax-
ation in remission is not likely to
exceed £950,000,000. Interest and
debt service will absorb £465,000,000,
so that only £485,000,000 will be
left for all the ordinary supply
services.

**GOVERNOR SIGNS FIRE
PREVENTION BILLS.**

(EXCLUSIVE DISPATCH.)
SACRAMENTO, May 25.—Five
bills appropriating \$34,400 for fire
prevention in the mountain forests
of Los Angeles county were among
the measures signed today by Gov.
William D. Stephens.

The bills were as follows:
A. B. No. 746, appropriating \$20,000
for the building of fire lines in
the watersheds of Los Angeles
county; the appropriation being con-
tingent upon a like amount being
put up by that county.

A. B. No. 412, appropriating \$5000
for fire prevention in San Antonio
Canyon, in the San Gabriel Moun-
tains.

A. B. No. 435, appropriating \$1400
for fire lines in the San Gabriel
Canyon.

A. B. No. 436, appropriating
\$3000 for fire lines in the San Dimas
Canyon.

**OPPOSES GENERAL
FREIGHT REDUCTION.**

(BY A. P. NIGHT WIRE.)
CLEVELAND, May 25.—That it
would be unwise to compel railroads
to make a general reduction in
freight rates and that members of
the league be guided in the solution
of the problem by the act to re-
gulate commerce, were recommenda-
tions in resolutions adopted today
by the National Industrial Traffic
League Convention.

To compel the carriers to lower
their rates would mean a reduction
in the quality of service and de-
terioration in upkeep, the resolutions
stated.

**COLOMBIA TO OFFER
GREAT OPPORTUNITY.**

(BY A. P. NIGHT WIRE.)
NEW YORK, May 25.—Great op-
portunities for North American busi-
ness interests will be opened in
Colombia on payment of \$25,000,000
to the country by the United States
in consideration of settlement of the
Panama controversy, members of
the Pan-American Advertising As-
sociation were told today by Earl
Harding of the Colombian Commem-
orial Corporation.

Much of this money will go for
construction of railroads, he said,
and virtually all payments will be
for public improvements.

**BAY STATE PROVIDES
A FILM CENSORSHIP.**

(BY A. P. NIGHT WIRE.)
BOSTON, May 25.—Movies in
Massachusetts will be under State
censorship, Gov. Cox having signed a
bill with that provision today. Su-
pervision will be exercised by the
Department of Public Safety. Ex-
hibition of any film not formally
passed is prohibited.

**JOHNSON ASSOCIATE
DEAD IN BAY CITY.**

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 25.—Will-
iam M. Sims, attorney and asso-
ciate of Senator Johnson, died today
at his home in San Francisco.

Sims was prominently identified
for many years with State Dem-
ocratic politics. He was born in
San Francisco in 1866 and had resided
in San Francisco twenty-five years.

**COMMUNIST LEADER
MAY BE DEPORTED.**

(BY A. P. NIGHT WIRE.)
CHICAGO, May 25.—Blaise Kuch,
25 years old, secretary of the Crov-
ian Federation of the United Com-
munist party of America, was ar-
rested tonight by Federal agents,
who said he would be taken for his
deportation. Communist litera-
ture advocating May Day riots was
found, the agents said.

HEAVY FINES IMPOSED.

(BY A. P. NIGHT WIRE.)
NEW YORK, May 25.—Justice V.
M. Davis of the Supreme Court to-
day imposed fines totalling \$25,150
on ten individuals and nine corpo-
rations, members of a dealers' associa-
tion who pleaded guilty to illegal com-
bination.

**Grape Juice
Hard Hit by
Home Brew.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—Home
brew and soft drinks of cereal origin
are cutting deeply into the unfer-
mented grape juice business, John
F. Welch, head of the grape juice
company that bears his name, today
told the Senate Finance Committee
in a pleading for reduction of
taxes on his product. With an ag-
gregate plant storage capacity of
11,000,000 gallons, he said, twenty
million more gallons would be
turned out only 7,000,000 gallons,
owing to the competition.

Welch named the beverages
which he said interfered with grape
juice makers.

**NO TRACE IS FOUND
OF LOST NAVY TUG.**

(BY A. P. NIGHT WIRE.)
SAN DIEGO, May 25.—No trace
of the missing Navy tug Conestoga
yet been found, according to
radio advice today from the Na-
vieship Charleston, which is heading
westward from San Diego in search
of the tug.

Ten Navy seaplanes and one blimp
left the North Island Navy air sta-
tion this morning to join in the
search. They will scour the Coast
southward and are due late this af-
ternoon at San Francisco Bay, where
they will refuel, and then proceed
tomorrow to Magdalena Bay.

**RIVER DEVELOPMENT
WILL HELP CHICAGO.**

(BY A. P. NIGHT WIRE.)
CHICAGO, May 25.—Chicago's
commercial possibilities are en-
hanced by a pact entered into with
the Federal government by govern-
ment of Western States to develop the
Colorado River, according to Gov.
C. R. Mabey of Utah, who, with
Mr. Mabey, arrived tonight.

"The Colorado," he said, "will
when developed, open up an ad-
ditional \$10,000,000 to agricul-
ture and live stock."

**CUT IN AMENDMENTS
FAVORED BY WOMEN.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—The
principle of reduction of amendments
was endorsed and assurances given
of the co-operation of women in a
resolution adopted today at a meet-
ing of the National League of Women
 Voters.

The resolution adopted today at a
meeting of the National League of
Women Voters, was to reduce the
number of amendments to the consti-
tution to one.

**BANKS INDORSE RICE
CO-OPERATIVE PROGRAM.**

(BY A. P. NIGHT WIRE.)
LOUISIANA, May 25.—The rice
bankers in the rice belt have
given unanimous indorsement to
the co-operative contract pro-
gram of the Louisiana Rice Growers
Association, it was announced today.
Bankers in the rice belt will meet
at Houston tomorrow and consider
the program.

**WIRE COMMUNICATION
FOR CAIRO CUT OFF.**

(BY CABLE AND ASSOCIATED PRESS.)
CAIRO, May 25.—Wire commu-
nication between here and Alexandria
has been interrupted by the cutting
of wires and no information was
available today from the Mediter-
ranean port.

A nervous atmosphere prevailed
here. Most of the shops were closed
today and the military and police
were patrolling the town.

**PENNSYLVANIA OIL
IS AGAIN REDUCED.**

(BY A. P. NIGHT WIRE.)
PITTSBURGH, May 25.—Further
reductions in the price of crude oil
were announced today by the pri-
ncipal purchasing agencies. The new
prices are: Pennsylvania crude, \$1;
Columbia, \$1.05; Cabell, \$1.15; Som-
erset, \$1.20; Somerset Light, \$1.30.
The reductions came as a surprise
to oil men.

**BUDGET CONFEREES
REACH AGREEMENT.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—Conferees
on the budget bill announced to-
day an agreement was reached on
the provisions for removal of the
Controller-General an official to be
appointed for a fifteen-year term.
Removal will be made by joint resolu-
tion of Congress requiring ap-
proval by the President.

Spoiled Salmon Destroyed.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 25.—A
half-million cans of Alaska salmon
were destroyed here today as unfit
for food. The court order for its
destruction was asked by the United
States Department of Agriculture
last July.

**NEGRO SWALLOWS
KEY AND NAIL.**

"Things Like That Usually
Don't Bother Me," He
Tells St. Louis Police.

(BY A. P. NIGHT WIRE.)
ST. LOUIS, May 25.—Carl
Williams, a negro, held by
police on a prior charge, last
night complained of stomach
pains. An examination
revealed he had swallowed a
key and a nail. When told
that was the cause of his ail-
ment he said: "Mighty funny
things like that don't usually
bother me."

He was taken to the City
Hospital.

**PRESIDENTIAL WARRANT
FOR BANK FUGITIVE.**

(BY A. P. NIGHT WIRE.)
RICHMOND CLERK TO BE RE-
TURNED FROM AUS-
TRALIA.

(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 25.—Gov.
Stephens today received a Presi-
dential warrant from Secretary of
State Hughes, authorizing the ex-
tradition of a bank fugitive from
Richmond, Va., to Sacramento, Cal.

The warrant was issued by the
First National Bank of Richmond,
allged to have forged checks ag-
gregating \$14,000. The warrant will
be held up by the Australian authori-
ties because of an alleged technical
defect.

**AUTO STAGE COMPANY
ASKS UNIFORM RATES.**

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 24.—The
Star Auto Stage Company, operat-
ing between Oakland and Stockton,
and between Stockton and Merced,
asked the State Railroad Commission
today for a uniform rate schedule.
The company recently was granted
a 15 per cent increase in rates
and said that it seeks to elimi-
nate the present rates.

**NEW ZEALAND LAMB
HEADS IMPORT LIST.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 25.—The
United States last year imported
60,000,000 pounds of meat, im-
ported from New Zealand the great-
est amount of any country in the
world. The Department of Agricul-
ture announced today that two-
thirds of the imports were said to
have been New Zealand lamb.

improved conditions in the textile
industry and the demand for boots
and shoes is brightening.

**PILSUDSKI LIKES
AMERICAN PIE.**

(BY CABLE AND ASSOCIATED PRESS.)
WARSAW, May 25.—Mar-
shal Pilsudski, Poland's chief of state, enjoyed
his first all-American meal re-
cently. The marshal was the
guest at a dinner given by
the American Minister,
Hugh Gibson, in the old pal-
ace of Count Zamoycki, which
for two years has served as
the American legation in
Warsaw.

**AMERICAN DISHES PREPARED

Jacoby's 46th Anniversary Bulletin

THURSDAY MORNING, MAY 26, 1921

PUBLISHED BY JACOBY BROS., LOS ANGELES

Skirts Take On Anniversary Prices!

Such Quaint Little Play Suits for Girls Are in the Anniversary at 95c

—Sturdy little "peg tops" for small girls, 2 to 3 years, that are especially priced because it's Anniversary Time.

—Some of Dutch blue and others of khaki twill with red trimming.

Boys' Play Suits Are 95c

—They are in long or short sleeve styles and have either Dutch or high neck. Some of blue, others of khaki twill, and the sizes range from 3 to 7.

The Floor o' Youth—The Fourth—Jacoby's

Charmeuse Skirts Are Lustrous and Luxurious

—The separate skirt continues to charm, combining unusual fabric beauty with interesting color and variety of line.

—The newest arrival is an exquisite and unbelievably soft charmeuse in—yes—black, priced \$18.98.

—We don't doubt that the designer had a hard time deciding whether to fashion it with the lustrous side out or the dull, crepe-y side out, before he favored the latter.

—At any rate, that is how it comes to us—enhanced with cluster pleatings in several styles. And with a belt either finished plainly or with a deeply fringed sash. Sizes 12 to 14.

—To wear with a brilliant-hued skirt, one could scarcely find a contrast more effective than a smartly designed coat of black velvet.

—Such coats, beautifully finished in every detail of fabric and workmanship, from the tuxedo collar or waist, newer cut known as the half-tuxedo, to the luxurious silk lining, are to be found at Jacoby's at \$24.98 to \$29.48.

—Perhaps the final irresistible touch is in the silk braid with which some of them are bound.

Third Floor, South Building—Jacoby's

Brilliant Colors Seen in Sports Skirts at \$8.98

—100 chic silk skirts for sports wear with each other in effective color harmonies and interesting values. The fabrics are Baronne Satin, plain or figured; two-toned Faille Silks and the fascinating Fan-ta-st.

—Predominating colors are white, black, navy, purple, rose, tan, Copenhagen, peach and apricot, and the finishing consists of perhaps simply a uniquely shaped button or a cleverly placed pocket.

Third Floor, South Building—Jacoby's

Nazareth Waists for Boys and Girls at 39c

—How pleased mothers will be to know that these waists are well taped and are finished with all the necessary buttons! They come in sizes 2 to 12 years.

Boys' Athletic Union Suits Special at 85c

—They are made for comfort and durability, of white muslin. Boys will be glad to know that they are sleeveless and knee length. They come in sizes 6 to 14 years, and only 85c.

Vests for Children at Jacoby's Anniversary Price 49c

—These well-made, fine white cotton vests are much below their real value at this price. They are low neck, sleeveless style and shell finished at neck and armholes. Sizes 2 to 14 years at the remarkably low price of 49c.

—They're all marked 49c.

Main Floor, North Building—Jacoby's

Imported Cottons, \$1.19

—Some thirty styles, all told, including French wash fabrics and silk printed voiles, all tremendously reduced.

Rodier's Weaves, 89c

—High-grade French fabrics, including crepes, ratines and sponge weaves from the famous Rodier looms.

Second Floor, South Building—Jacoby's

When it comes to the anniversary, just how you will look is the question. To the query put up to this hand, a friend of ours sent us the question: "It goes from our 'mud' she had read, and we were right along the top. To shoot our thought across signs at the special price of \$1.19. Like which or as what will we see? What costume of progress will leave? The dress or the dress that are feet? Maybe you won't mind admitting you feel quite a bit 'all at sea' if you start your thoughts slowly and, frankly we state, 'so are we.'"

—MABEL M. PARKER

More New Patterns In the Popular Luncheon and Breakfast Sets At \$1.29

—In tones of delft blue there are Dutch scenes of boats and windmills and quaint Japanese scenes and figures, and then there is a floral pattern. All of them make the table look so bright and cheerful during the hot summer months and the best part of it, is they are so easily cleaned.

—Then in rich three-tone color effects are tulips, wild roses and cherry designs at the special price of \$1.29.

Main Floor, South Building—Jacoby's

The Sale of Men's Shirts at \$2.95 Will Create a Stir

—They are very high grade shirts, tailored to fit in the way a man approves, and well finished down to the smallest detail.

—Imported madras is the material, and there are large assortments of corded and woven stripe patterns, both the conservative and the bolder effects.

Main Floor, North Building—Jacoby's

Men Will Like the Pajamas Priced \$2.48

—They are full cut, neatly finished pajamas of madras and the regulation pajama cloth, and they are all finished with the silk frog trimmings.

—A comfortable, light weight, and large variety of plain colors and fancy stripes in the assortment.

Main Floor, North Building—Jacoby's

Men's Union Suits Have an Anniversary Price of \$1.49

—These are the lightweight suits, spring needle knit of good combed cotton yarn in either white or ecru.

—They are short sleeves and are ankle length, and the size range is from 34 to 44.

Main Floor, North Building—Jacoby's

Men's Gordon Sox Are In The Sale at 15c

—The "Gordon" brand is known far and wide for good wearing qualities.

—The opportunity to buy sox like these at such a pre-war price as 15c is something to rouse enthusiasm!

—They are made of good combed cotton and reinforced with linen heels and toes. Black only.

Main Floor, North Building—Jacoby's

Imported Cottons, \$1.19

—Some thirty styles, all told, including French wash fabrics and silk printed voiles, all tremendously reduced.

Rodier's Weaves, 89c

Money Talked in 1875 Just As It Does Today

It Speaks a Language That Everyone Understands—the Only One That a Great Many Ever Did or Will Understand

—Our youthful days are not so far away for any of us that we can't appreciate the miraculous way in which hearing was restored to this boy of 1875! Running through the Express of those days we ran across this little article:

"The Los Angeles specimens of Young America are sui generis. The other day a young shaver, whom we shall call 'Tom,' started from home for school. His father wished to see him for a moment, and loudly called for him to come back. 'Tom' affected not to hear and kept on the even tenor of his way. He was deaf as an adder. Pater-familias was equal to the occasion. He took a four-bit piece out of his pocket and let it drop on the floor of the porch. The metallic ring of the silver did what neither a sense of duty nor fear of the paternal wrath could effect, and 'Tom' found his way back instantly. That boy will yet be Secretary of the Treasury or start a Credit Financier, or something of that sort."

—Some of us today are no doubt deaf to much that we should hear, but Jacoby's prides itself on its ability to hear and see all the little as well as the big things that affect its customers! It is as quick to hear and correct complaints as it is to hear the splendid things people are saying about our Anniversary values and the remarkable way in which our store is growing.

THURSDAY MORNING.

INSISTS HE KILLED TO SAVE LIFE.

Arguments Begun in Suit of Giroux Daughter-in-Law for Million Dollars.

Testimony in the \$1,000,000 damage suit filed by Mrs. Solo Giroux against her father-in-law, J. L. Giroux, millionaire mining man of Hollywood and Nevada, for the death of her husband, George Giroux, closed in Judge Monroe's court yesterday afternoon. The court will rule today on the motion to instruct the jury.

Mr. Giroux's testimony was corroborative of that of his wife, Phoebe Giroux, who said she was in fear of her life from the revolver with which George Giroux menaced her in the kitchen of the Marietta (Nev.) cabin.

Attorney Scott asked him: "Why did you shoot George?"

"To protect my life," he answered.

The witness testified that George was wild-looking; that four was on his mouth. He was too agitated, he said, to roll a cigarette or to light it after his brother-in-law, Jack Saucer, made one for him.

When Mr. Saucer seized Mr. Giroux's arm to prevent him drawing a gun from beneath newspapers on the table, the testimony was that George was standing up with his revolver in his hand. The first shot fired by Mr. Giroux went wild. The second shot struck George in the head.

Sheriff Frank Balzar, Dep. Dist. Atty. W. J. Hamell and Dist. Atty. J. H. White of Nevada, contradicted Mr. Saucer's story that he actually said at the coroner's inquest which resulted in the exoneration of Mr. Giroux.

Mr. Saucer said to these witnesses, "It was a matter of Mr. Giroux killing George or being killed by him. George was crazy for weeks; he could not sleep; he paced the door all night long."

Mr. Saucer denied that he said this. He admitted that he did tell the whole truth at the inquest for the purpose of protecting the elder Giroux. The jury will be instructed this morning by Judge Monroe.

agreement have ever arisen between us.

"This consolidation gives the Union Pacific control of the property and assures the permanency of its position in Southern California, with its rails into Los Angeles and to the Pacific Ocean at Los Angeles Harbor."

Former Senator Clark, following a short account of the history of the Los Angeles and Salt Lake System.

"The advantage in the unification of the great Union Pacific Company interests and the placing them in the purchase of our holdings of the capital stock, in effecting the consolidation, was the interest of all bond and stockholders have been simply protected. In making the contract, we have reserved for the benefit of the holders of any of the bonds not controlled by me, the right to exchange them on the same terms as I obtained for myself."

J. Ross Clark, second vice-president of the Salt Lake system, whose offices are on the fifth floor of the Pacific Electric Building, understood to be undecided as to whether he will remain as an official of the expanded system.

PAYS PRICE IN BONDS.

In exchange for the \$29,000,000 worth of Los Angeles and Salt Lake Railroad bonds held by W. A. Clark and others, the Union Pacific company, dollar for dollar, paid over approximately \$4,000,000 of the Southern Pacific's San Francisco terminal 4 percent bonds; \$3,000,000 of Southern Pacific Railroad first refunding 4 percent bonds, and \$14,000,000 of Great Northern Railroad and Navigation first and refunding 4 percent bonds which have been held in the Union Pacific treasury.

It is expected that actual consolidation of the two railroad properties will be delayed for some time, pending a ruling on certain Utah statutes which may be interpreted as forbidding such consolidation. Until this legal technicality is removed, either by court decision or by legislative action, it is thought probable that the Union Pacific will operate the Salt Lake system as a subsidiary company.

POSTAL INSTRUCTION SCHOOLS GIVEN JOLT.

According to an order received yesterday from the Postmaster General by Postmaster Brown, postal employees who assist any of the so-called schools for instructing candidates in advance of examinations for appointments in the postal service will be discharged.

The same order requires postmasters to refuse requests to give unaddressed matter to candidates who may call upon them regarding appointments, the unaddressed matter being left by those interested in certain schools who have been seeking the co-operation of postmasters.

"Ah! that Tomato Sauce!"

HEINZ OVEN BAKED BEANS with Tomato Sauce

Yes, you detect it at once—that delicious flavor and tang of Heinz famous Tomato Sauce. It is made of choice, fresh, sun-ripened tomatoes, perfectly spiced and seasoned and used exclusively in the spotless Heinz kitchens.

But the supreme goodness of Heinz Baked Beans is the blending of this distinctive taste with the real bean flavor that oven baking gives.

The Heinz method of actually baking in dry heat ovens retains the food value of beans as well as the flavor. These things mean food economy.

Heinz Oven Baked Beans are all ready to eat—hot or cold.

(Continued from First Page.)

The Los Angeles Examiner, Capt. Shackford, Lieut.-Commander Longabaugh, his medical officer, Capt. W. Scott, chief chaplain, Pacific Fleet; Police Judge Frederickson, and Chamber of Commerce Committee on Naval and Military Affairs.

The letter confirms the facts stated in Admiral Welles's letter to Washington. Continuing, it declares that this port is fifth in the entire country in amount of social disease, and concludes as follows:

"We believe that the commission is interested in the situation and that you will not be blinded and confused by any amount of public outcry. We believe that, like this office, you are interested in neither sensationalism nor sentimentalism, but in cold facts. We believe that you too will feel that even though 183 out of every 1000 inhabitants of this city rose up and declared that things were not as they are you would still face calmly and sympathetically the 183 out of every 1000 boys at the Submarine Base who, in the course of a year contract disease, while in the same period only nine out of each 1000 become diseased at San Diego."

Further comment on the situation by prominent Los Angeles citizens follows:

Dr. Randolph W. Hill said: "Navy regulation would not be necessary if we had an efficient city government. It would clean up the town, and we would not have the stigma of the Navy having to do it. An efficient city administration is what is needed."

Sam Shells said: "I am against any outside interference in affairs that should be regulated by the local authorities. It seems to me that the Navy is getting to be a nuisance to the city. I don't think the Navy need clean up the city because the city administration, the new one, not only can, but will."

Dr. A. J. Scott said: "I think Admiral Welles's announcement very timely. Conditions here remind me of those nineteen years ago when 'Pinky' Snyder was the same Mayor."

Dr. H. A. Kittelle, a chiropractor, convicted of practicing medicine without a certificate from the State Medical Board, was sentenced to ninety days in jail by Judge Houser yesterday.

The court stated that in his opinion the law should be amended, but pointed out that with that feature he had nothing to do.

Griffith Jones and John Craig, representing Dr. Kittelle, gave notice of appeal from the verdict. Dr. Kittelle gave bonds pending the appeal in the sum of \$1000, and was released.

Attorney Jones, who was denied a motion for a new trial, based his argument on the fact that the jury tried the case that there was a quarrel in the jury room that the women jurors were talking. He said Dr. Kittelle was entitled to a new trial on account of a lack of a name considered by the jury.

Dr. Harding came West to address the graduating class of the Los Angeles Medical College. While in San Diego he was a guest of the County Medical Society and visited all the places of interest in the southernmost part of the State.

Upon his arrival here yesterday he went to the home of Dr. George Thompson of 277 Ridgewood avenue, where he will remain as a guest for two or three days. About forty friends of the Harding family attended a reception given in his honor last night at the Thompson home.

CHANCE FOR YOUTHS.

Enlistments Open in Marine Corps Leading to Naval Academy.

Youths between the ages of 18 and 19, with ambition to become midshipmen at the United States Naval Academy, are now being accepted for enlistment at all Marine Corps recruiting stations, according to advice received yesterday from Marine Corps headquarters, Washington, D. C., by Capt. W. M. Melvin, officer in charge of recruiting, district of Los Angeles.

One hundred enlisted men are appointed to the Naval Academy each year, after a competitive examination given in the Navy and Marine Corps. They must not be more than 20 years of age on April 1 of the year it is desired to enter, and must have been in the service at least one year by August 15 of that year.

PORTABLE STADIUM.

Engineer Submits Plan for one the City Council.

Los Angeles may have a portable stadium, one that can be moved to any desired location, if a letter from Edwin Hadden, a civil engineer of New York, is taken seriously by the Board of Park Commissioners. Mr. Hadden wrote the Council yesterday explaining his "adjustable stadium," and the letter was referred to the commission report.

According to the plan the stadium is of reinforced concrete and the seating matter is made up in units mounted on double-flanged wheels that may be moved to any place desired on a track provided for the purpose. The stadium as proposed by the engineer has a seating capacity of about 30,000.

DOGS WILL HAVE OWN AMBULANCE

Hospital With Doctor and Nurses to be Installed at Kennel Show.

A complete dog ambulance and hospital, with uniformed nurses and a doctor in charge, will be installed at the Ambassador by William F. Banks, the manager, for the blue-blooded show of the Los Angeles Kennel Club on the hotel grounds June 10 and 11.

Every dog ailment from hiccoughs to St. Vitus dance will be treated. Dr. Austin B. Byles has been appointed veterinarian by the dog show committee.

Every one of the many hundred dogs which enter the show will have to pass a health test as far-reaching as that applied to the immigrants who arrive at Ellis Island. One flea or one warm nose will mean immediate disqualification. Entries for the show close on the 26th inst.

tempted to give Los Angeles a "black eye" or in any way place this city in bad light. Rather the failure of the city administration to effect the necessary vice clean-up, as demanded by Admiral Welles, has placed the city in an embarrassing situation that can be remedied only by a complete change in city management.

Dr. A. J. Scott said: "I think Admiral Welles's announcement very timely. Conditions here remind me of those nineteen years ago when 'Pinky' Snyder was the same Mayor."

WIN BACKING IN FIGHT ON RAIL RATES.

California Growers Pledged Support by Three Members of Congress.

Assurance of support to the fight of perishable food products growers of the West to obtain lower transcontinental freight rates, was received here yesterday by O. Harold Fowler, chairman of the producers' transportation committee, from Senator Borah of Idaho, Senator Capper of Kansas and Representative Seigel of New York.

The message received from Senator Borah states that he is in entire sympathy with the movement of the western growers and that he fully appreciates the present plight of the industry.

The three Congressmen declare that they are opposed to the Transportation Act of 1920, which is held to be responsible for the present prohibitive rail carrier charges to western markets.

Representative Seigel declares that unless lower rates are forthcoming immediately, nobody in the West will be able to eat California fruits and vegetables.

The dispatch from Senator Borah, in part, read:

"I am in harmony with the views you express. Until there is a reduction in freight rates, it is my opinion there will be no return to prosperity."

"I feel very sincerely when the Each-Committee bill was before the Senate that its effect would be to increase the freight rates and to complicate the transportation system generally. For this reason I am opposed to it."

"I shall be very glad to lend every effort to secure the relief which you ask for, and to which you are entitled."

VISIT MRS. PEETE?

Husband Wants to Know Whether Men Call on Her in Jail.

What men, if any, have been calling upon Mrs. Leda L. Peete, now in the County Jail under sentence of life imprisonment for the murder of Jacob G. Denton?

This is the question propounded to Sheriff Trager yesterday by R. C. Peete, husband of the convicted woman. Mrs. Peete is now awaiting a decision of the District Court of Appeal on her request for a new trial.

Mr. Peete first asked the question of jailer J. J. Henry, who referred him to the Sheriff. He is known who calls upon his wife. The inquiry Sheriff Trager replied that Mr. Peete was at liberty to examine the records of all visitors, except in the case of attorneys, officers and newspaper men, who do not need special passes. Mr. Peete stated that he was not concerned about anyone in these three classes. Nothing was said about why Mrs. Peete was not questioned by her husband.

There's No Other Loaf Bread Just Like Jevne's

Don't let anyone tell you that all bread is alike. It is no more alike than two cakes made by different cooks. It takes more than good materials, more than good baking methods, it takes experience and judgment to make good bread.

Jevne's make their bread so carefully that each loaf turns out beautiful and perfect. The standard of perfection is maintained day in, day out, so that thousands of women have come to depend upon good bread because the Jevne Company makes their bread.

The People and Their Daily Troubles

DOROTHY TALKS

A Woman's Money.

BY DOROTHY DIX.

What is a woman to do who has inherited a nice little fortune? Shall she turn it all over to her husband or keep it herself?

I say that she should keep it herself. If her husband is the right sort of man he will be glad to know that she is protected against the hardships of poverty and want, no matter what befalls him, and if he is the wrong sort of man she will need her money more than ever.

For that type of husband never treats the wife who is financially independent as merely as he does the one who is dependent upon him.

I believe that the married woman who has money should keep her financial affairs in her own hands and separate from her husband's for many reasons. First, because it makes the family doubly safe. All of the eggs are not in one basket. If the husband is a good business man he will not need the wife's little roll, and if he is a poor business man the wife's income helps the family, and not selfishly use it for her own benefit.

Until within a comparatively short time ago, a woman's property automatically passed to her husband on her wedding day. Many women still put everything they have unreservedly into the hands of the men they marry, and merely sign on the dotted line whatever paper the husband brings to them. The result is that all of us know dozens of women, who were reared in the lap of luxury and inherited fortunes, who have been brought to direct poverty by their husbands.

Most of these men did not intentionally rob their wives. They were just bad managers, or reckless speculators, and they took risks with the money they had not earned that they would never have taken with money for which they had toiled and sweat. Come easy, go easy, is the eternal law of the dollar. You rarely see either men or women wasting the pennies that represent their own hours of toil and sacrifice. It is inherited money, married money, they throw at the winds.

Some of the most lovable men in the world, the kindest, the best, the most ideal husbands, are utterly incapable of taking care of money. The very qualities that make them so adorable, and their softness of heart that can never say "no," their cheery optimism that refuses to look on the dark side of any proposition; their hope that in confident everything will turn out all right; their visions and their dreams, all make them the predecessors of every sharp-eyed miser and vendor of gold bricks that comes along.

Such a man is always on the verge of making billions, and he has no hesitation in taking his wife's tacit investment in some mine in Peru, or a speculation for making gold out of sand; and he is surprised and shocked when the money is swept away. But the money is gone, and there is as little profit in crying "woe" as there is in crying "joy" when the money is lost.

Such a man needs to be taken care of as if he were a child, and his wife can only do it by keeping a death-grip on her own pocketbook. However, the woman who inherits money owes something to the parents who have left it to her, and her children and their children's children might have the advantage of that money, and she should perhaps have it. They did not have it in their youth. The man who lays up a fortune is thinking for his grandchildren, and planning to give them an education and a start in life, and his daughter is in honor bound to fulfill his desire as far as she can. She has no right to turn the money over to a stranger to waste, and so risk her children's inheritance.

Of course, it will be said that now and then a wife does give her property to her husband, and he turns a few thousand dollars into a fortune. True, there are exceptions to every general rule, but the man who has the money-making instinct would make his fortune anywhere, and taking it by and large, the wife is too great. Nine times out of ten the woman is better off to keep her own money.

But the woman who inherits money should play fair with it. She should keep the principal, but spend the income for the benefit of

Making More Money

New Jersey Woman Gets off the Pay Roll and into Proprietor-Manager Class.

IT WAS about eight years ago that a little gray-eyed woman, employed as a stenographer by a New Jersey lawyer, decided that she would go into business for herself. She wasn't tired of stenography. On the contrary she was very fond of it. But she had analyzed the business situation and had found that the employer made a whole lot more money than the employed because, if the business was organized along the proper lines, every employee must necessarily make a profit for the head of the company.

Having saved up a nest-egg of \$100,000, she decided that she would go into business for herself. She wasn't tired of stenography. On the contrary she was very fond of it. But she had analyzed the business situation and had found that the employer made a whole lot more money than the employed because, if the business was organized along the proper lines, every employee must necessarily make a profit for the head of the company.

By the end of the first year she was employing a large force, and she had built up a fine reputation. She was a woman who knew her own mind, and she was a woman who was not afraid to take risks. She was a woman who was not afraid to take risks.

Also a man treats every woman who has money in her own right differently from the one who hasn't. This instinctive knowing to money extends even to wives, and so the woman who wishes to keep her husband on his good behavior does well to keep him interested in her money. There is no financial problem more complicated than the domestic one, but the woman who keeps her money may be sure of one thing. She is playing a safe game, instead of taking a flier on her comfort and happiness.

LETTERS TO "THE TIMES."

HAMMOND HARVEY.

PARADISE, May 21.—[To the Editor of The Times:] I thank God that you, a staunch Republican, have written above politics and written so fearlessly and ably your denunciation of Col. Hays. My wife's relatives all are, as she was, English and Irish, and I am proud to have them help change what must be their amazed judgment. The only adequate remedy to correct the damage done by this man is his recall by our government. Three of my boys were overseas, one lost in the Argonne, I burn with bewilderment and humiliation that such a man has been given the opportunity to so misrepresent us.

ERNEST N. WRIGHT.

MOB LAW LEARNINGS.

LONG BEACH, May 24.—[To the Editor of The Times:] It was with pleasure that I read in today's Times a letter from Mr. James Ferguson in which he agreed with the sentiments as expressed in my letter to your paper under date of May 12, in which I severely criticized the action of the Hollywood Post of the American Legion for its remarkable display of mob-law and un-Americanism in front of Miller's Theater.

It would seem from the newspaper that the American Legion on the Pacific Coast seems to have in it a deep-rooted leaning towards mob law. For I note that an editor of a paper was lashed by five men because he had written an editorial in his paper which seemed to disapprove the post in question. It is well to note that they sent five men to the job, for the chances are that the editor in question could have thrashed any single one of them.

It seems too bad to me that the Legion has allowed itself to be dragged into the gutter, and how they have not them use their efforts

QUESTIONS ANSWERED.

Question: Please describe the Jewish flag and tell when it originated.

Answer: The Jewish flag is composed of five horizontal stripes. The two outside stripes and center stripes are white, the remaining two stripes blue. The center of the flag is the Star of David. The exact origin of the flag is not known, but it dates from the eleventh or twelfth century.

Q: Is it proper to wear a silk hat with a Tuxedo suit?

A: A high hat is not worn with a Tuxedo. It is correct to wear a bowler hat or a straw hat.

Q: If a man files on a home-

stead and oil in commercial quantities is developed in the vicinity, how does this fact effect his rights and title?

A: The General Land Office says that if you filed the claim and obtained the patent on the land before the passing of the Oil Land Leasing Act of Feb. 25, 1902, you are, according to section 29 of said act, entitled to the oil and gas found on the land. If you filed your entry after the passing of the Oil Land Leasing Act, the mineral rights are reserved to the government, and you cannot obtain them.

Q: Frequently when reading a stamp article a person finds such terms as "engraved," "lithographed" and "typographed." What do these terms mean?

A: Stamps are produced by five different methods—Taille-douce, or copperplate, line engraving; Epargne, or typographic surface printing; lithography, embossing and type printing as in book and newspaper printing. The terms "lithographed," "engraved" and "typographed," designate the process whereby the stamps were produced. For instance, in lithography the printing is done from a stone and the result is quite flat, as opposed to the effect produced by copperplate engraving.

Q: How much is a gram?

A: The Chinese gram is a coin, but merely a slang term for its value varies in different parts of the world. The Chinese gram is worth 72.9 cents. The Chinese gram is worth 72.9 cents.

Q: Is there an arrow in the bill of the Swan?

A: The Arrow is a constellation between the stars of the Swan.

KILLED AS AUTO UPSETS.

Joseph Formanack, 70-year-old
rancher, 142 North Hancock street,was killed yesterday near Norwalk
in an automobile accident that alsoresulted in serious injury to his
brother-in-law and sister, Mr. andMrs. Joseph Chesick, 448 South
Griffin avenue. It was stated atthe John Paul undertaking estab-
lishment that death probably wascaused by a fracture to the skull
caused by a severe cut from the flyingglass of the broken windshield.
Mr. and Mrs. Rudolph Herdina,351 South Hancock street, also were
slightly injured in the crash, whichoccurred shortly before noon, as the
party of five was en route from LosAngeles to Anaheim in Mr. Formanack's
automobile. Mr. and Mrs. Chesickwere taken to the Puller-
ton General Hospital by motorists
who stopped to aid the accident victims."We were not going very fast at
the time of the accident," said Mrs.
Herdina, who was perhaps the leasthurt of the five. "Mr. Formanack
was driving and the car was run-
ning on the right side of the road.When he tried to right the machine turned
over. None of us was pinned be-
neath the wreck.""Mr. Formanack was badly cut
by the glass from the windshield
and I believe he really bled todeath because he lived for while
after the crash."At the hospital it was declared
last night that the condition of bothMr. and Mrs. Chesick is serious and
that the latter is still suffering
from shock. The full extent of theirinjuries could not be learned be-
cause of their condition, but it wasbelieved that there were no frac-
tures likely to prove fatal.
Mr. Herdina, who, with his wife,was able to return to his home
was severely cut and bruised. Mrs.
Herdina is suffering from minorbruises and shock.
Mr. Formanack leaves a widow,
Mrs. Barbara Formanack, onedaughter, Mrs. E. W. Ryan of 42

Los Angeles do a business individual-
ly of more than \$1,000,000 a year,yet they assert they are hardly mak-
ing a profit, according to informa-
tion said to have been presented tothe county grand jury yesterday.
Distributors are being interviewed by
Dep. Dist. Atty. Powell, who isconducting the inquiry. The price
they pay for milk is the subject of
the inquiry. It was stated thatG. H. Shaw, secretary of the Gold-
en Seal Dairy Company, vice-presi-
dent of the California Milk Dis-
tributors' Association, was one ofthose called before the jury yes-
terday. He is said to have stated
that distributors receive a cent aquart for delivering certified milk.
The inquiry was halted yesterday
while S. A. W. Carr, vice-presi-
dent of the Crescent Creamery Com-pany, a distributing concern, was
testifying. He will be interrogated
again today. Others subpoenaed toappear today are President Platt of
the Los Angeles Milk Company, Sec-
retary Glass of the California MilkDistributors' Association, and Sec-
retary of the California Milk Producers' Association.
Health Commissioner Powers wasa witness. It was said he testified
regarding tests required by the city
in milk inspections.

Celebrate Sixtieth Wedding Anniversary.

Capt. and Mrs. Clifford A. Fuller.

THE loving tribute of comrades
who have shared in the joys
and sorrows of more than halfa century was paid to Capt. and
Mrs. Clifford A. Fuller in a celebra-
tion of their sixtieth wedding anni-versary by Columbia Circle, G. A. R.,
in Patriotic Hall.
Capt. Fuller, who has led an un-usually eventful life since he
marched away to war, May 25,
1861—his wedding day—has been in-timately identified with the develop-
ment of California since his ar-
rival in Oakland in 1871.With two associates, he shipped the
first carload of California raisins to
the eastern market; he was in Bal-
timore when oil was first discov-ered, and he served as land agent
for Col. P. Huntington during the
construction of the Southern Pacific
Railroad.Capt. Fuller is 65 years old and
his wife is 62 years old. They have
six children and 12 grandchildren.Sixty years ago yesterday, Capt.
Fuller, responded to the call of his
country and joined the ranks of the
United States Army.He was assigned to the 1st Cavalry
Regiment and served in the Philis-
tine campaign. He was promoted to
captain and served in the Spanish-American war. He was discharged
in 1891 with the rank of captain.
He then engaged in business andbecame a successful raisin shipper.
He was elected president of the
California Raisin Shippers' Associa-tion and served in that capacity for
many years. He was also president
of the California Milk Producers' As-sociation and served in that capacity
for many years. He was also presi-

to be Returned in June.Lyda Trueblood Southard is still
a widow and not a wife, legally,
according to cablgrams received yester-day from Honolulu, where she is
held charged with the murder of her
fourth husband, Edward F. Meyer.V. H. Cronley, Twin Falls (Idaho)
deputy sheriff, who with his wife,
Mrs. Southard, went to fetchmade the announcement. He pro-
duced a copy of the marriage cer-
tificate, issued here, which showsboth the then Mrs. Meyer and Paul
Vincent Southard asserted they never
had been married. Southard, itdevelops, had been divorced in Oc-
tober, 1920, a month before his mar-
riage to Mrs. Meyer here. Californialaws forbid another marriage until
a year after the interlocutory de-
cree has been granted."Mr. Cronley said the marriage
had been performed in Los Angeles
by Justice of the Peace Brown.Southard gave his wife as his
name as 27, and her occupation as a
nurse.Southard has expressed repeatedly
full confidence in her innocence of
the deaths of her four husbands, allof whom died of poisoning, accord-
ing to recent examinations of their
bodies. He said he had been di-vorced from his former wife in Ha-
waii, but that if there was any
question about the legality of hismarriage to Mrs. Meyer he would
remarry her. Southard is a chief
petty officer of the United StatesNavy, now stationed at Pearl Har-
bor, Hawaii. He is continuing ef-
forts to get leave so he can attendthe trial in Idaho. Southard said
his former wife had deserted him.
Each of Mrs. Southard's formerhusbands was insured in her benefit.
Southard admitted last night that
he had applied for \$5000 life insur-ance after his arrival in Hawaii,
but he denied his wife had suggest-
ed he do so.The authorities are keeping a
close watch on Mrs. Southard, who
is confined in the jail at Honolulu.Mr. Southard declares her health is
bad and she should be removed to
a hospital, but the jail physiciancontends the prisoner's health is
good, although she is weak.
Cronley and his wife havemade arrangements to sail June 1
with the prisoner.

P = S

P.S. not only stands for Potter-Strutz superiority but is commonly used as an abbreviation for Postscript. Postscript is defined as something added, coming after, etc.

Potter Gas Radiation came after and is the result of something added by capable, highly trained men who have given years of thought to the gas heating and ventilating business.

To the thinking man, the fact that we have heated thousands of schools, churches, hospitals and homes in the year just past is abundant evidence of Potter-Strutz Superiority. In schools and hospitals especially, where long hours of confinement are necessary, clean, instant, absolutely odorless heat is demanded.

This modern system easily installed in old or new buildings.

BIG ADDITION TO PORT URGED.

Notable Suggestions Made by High Navy Official.

Breakwater Extension, Scenic Drive Are Advocated.

Would Make Harbor Ready for Years of Development.

Recommending that two sections be added to the government breakwater outside Los Angeles Harbor, to extend from near the entrance to Long Beach Harbor to a point some distance out to sea, a high naval official of the Pacific Fleet has suggested improvements of considerable magnitude. He advises the construction of a section to extend south from near the Virginia Hotel for a distance of four and one-half miles, a great undertaking, but one which the future commerce of the port will justify, in his opinion.

A third section of the breakwater, much smaller, for which the plans and estimates have already been drawn, would leave the outer harbor with two entrances, and full protection in all weathers, for shipping anchored outside. The port would then be ready for many years of commercial development, he believes.

Piers, wharves, warehouses and terminals could be constructed on the southern side of Terminal Island, facing the sea, on a water front extending for several miles.

Another suggestion of the naval officer calls for the transformation into a scenic boulevard of the wagon road skirting the hills above Port MacArthur. This would provide one of the most beautiful drives in southern California, affording a view of the ocean for miles, with Catalina Island in the distance and with Los Angeles Harbor and Long Beach in the foreground.

Famous Horses Lost as Flames Sweep Stables.

(Exclusive Dispatch)

SANTA BARBARA, May 25.—The Blue Bird Stables, owned by Mrs. Pike Hammond of Montecito, one of the wealthiest social leaders of this section, was rased by fire and destroyed last night.

The mysterious origin last night and among five horses destroyed were Valma and Indian Chief, each valued at \$1000, the latter being a noted polo pony. Shot, a saddle animal, which has carried some of the wealthiest men and women of America on the mountain trails of this section, was also lost. He had just been sold to Mrs. W. H. Walbridge of Ojai for \$800.

The flames burst out suddenly and had spread over the building before being discovered. The Blue Bird Garage, owned by Mrs. Hammond and which fronts on the Coast highway, was threatened for a time but was undamaged. The origin of the fire is unknown.

Also late last night the Thurston Building at Old Town, Carpinteria, the first business structure of that section, was fired and destroyed, together with some fifty tons of hay. The old building had been the mark and, for some years, had been used for storage purposes. Because it dated back to the early days of the structure had been allowed to stand, while other relics of Carpinteria have vanished.

Block Plan for Higher License on Female Dogs.

Without a hearing, the proposed change in the city ordinance to raise the license on female dogs from \$4 to \$5, was rejected yesterday by the Council's Finance Committee by a unanimous vote.

When the commission entered the room at the City Hall yesterday they found the place packed with women, all of whom admitted that they were there to oppose the license increase. Councilman Conaway looked over the assemblage, then moved that the plan be rejected, which was readily agreed to by the rest of the committee. Councilman Delaney then told the women that the law would not be raised. There was applause, the women went home satisfied, and the committee adjourned.

HAIR CUT CAUSES ROW.

Bobbed Traces Displease Mate so Woman Takes Poison.

Despondent because her husband of five weeks reproved her for having bobbed her hair, Myrtle Chapin, 22 years of age, of 918 West Eighth street, early yesterday morning swallowed a quantity of poison. Rushed to the Receiving Hospital by her husband, the young woman was treated by Police Surgeon Saverin, who says she will recover.

From what could be learned by Police Detectives Gross and Vail, who made an investigation of the attempted suicide, Mrs. Chapin quarreled with her husband when he discovered that she had bobbed her hair without first consulting him. Following the quarrel, according to the police, the young woman rushed into the bathroom of her home and swallowed the poison.

"POLY" ALUMNI DAY.

Three Thousand Graduates of High School to Meet Tomorrow.

Tomorrow is Alumni Day at the Polytechnic High School. That means a good time to some 3000 Polytechnic alumni. A banquet will be given at 6 p.m. There will be dancing at 1220 South Plumer street after 9:30 p.m.

FALSE PRETENSE CHARGED.

Accused of obtaining \$1700 through false pretenses from Joe Piantani last April 6, when he is said to have sold him the furniture of the Nebraska Hotel, 704 East Fifth street, Mrs. A. J. Kellier was held to answer yesterday by Justice Follette. It is charged not all of the articles belonged to her. She was prosecuted by Dep. Dist. Atty. Hill. The defendant was released on her own recognizance.

A SKS SALVE FOR "SPOILT" LIPS.

Film Actress Who Wished Them Made More Kissable Sues Beauty Doctor.

Some one once said that it's a hard job to paint the lily or perfume the rose. Miss Pauline Hall, a cinema actress, now says she wished she had tried to improve her lips. And Gertrude Steel, a beauty doctor, may say something of another kind when the suit filed by Miss Hall against the dermatologist comes up for trial. But that is entirely speculative, as it is said that roses and lilies—and lips—have been improved before with more or less success.

According to the papers filed in the suit, Miss Hall employed Dr. Steel to improve her beauty. Her lips weren't as kissable-looking as she would like them for screen work. So an operation was performed and the lips didn't look quite as well afterward as before, she says.

Now Miss Hall demands \$15,000 damages and expenses from Dr. Steel for what she terms disfigurement. She is represented by Attorneys Bush, Houlahan & Hatchell.

BANKERS BUSY AT SAN DIEGO.

(Continued from First Page.)

day afternoon. The finger of fate points strongly in the direction of W. R. Clayton, president of the First National Bank of San Jose.

J. C. Hughes, trust officer of the Mercantile Trust Company of San Francisco and chairman of the trustees of the National Bank and Trust Company of Los Angeles, has qualified to do a trust business, among them the Hibernian Trust Company of Los Angeles; that four State banks have added trust departments; that two national banks, including the National Bank and Trust Company of Pasadena, have been authorized to open trust departments; and that nine national banks are now authorized to do a trust business.

A WATCH BILL.

A subject which is of vital interest to trust companies at this time is the probable action on Senate bill No. 21, introduced by Senator Sample of San Diego, which seeks to limit the prerogatives of trust companies in testamentary matters. Mr. Hughes expressed the hope that the broad vision of the Governor will win out in the Senate, and that the interests of the proponents of this measure, and that he will refuse his approval.

The evening session was enlivened by brief and snappy talks on subjects pertinent to trust matters by L. H. Rosenberry of the Security Trust and Savings Bank of Los Angeles, Edward D. Starbuck of the County National Bank and Trust Company of Santa Barbara, W. R. Williams, cashier of the Bank of Italy at San Francisco; A. L. Lathrop of the Union Bank and Trust Company of Los Angeles; J. H. Covery of the Title Insurance and Trust Company of Los Angeles and G. T. Douglas, secretary and treasurer of the trust company section and cashier of the Berkeley Bank of Savings and Trust Company.

During the evening a conference of officers of the various banking groups was held and the selection of an advisory committee urged. The duty of this committee would be to bring about closer relations between the banking interests of the State.

Just before bedtime, Judge W. R. Hervey, vice-president of the Los Angeles Trust and Savings Bank, was elected chairman of the section to serve for the ensuing year, and John C. Veenhuysen, vice-president of the Guaranty Trust and Savings Bank of Los Angeles, was chosen secretary and treasurer.

Tomorrow morning the convention will devote itself to the president's charge and committee and group reports. Edward Elliott, vice-president of the Security Trust and Savings Bank of Los Angeles, will make one of the principal addresses in the afternoon. In the evening there will be a reception and dance aboard the battleship Mississippi.

SINGLE POINT WON.

But One of Thirty Motions in Berry Bank Case Granted.

After two days of argument over thirty motions to strike out various portions of testimony in the trial of Orla S. Berry, former cashier of the Citizens' Trust and Savings Bank, Judge Reave yesterday granted one motion. This referred to the testimony of J. W. Taber, who stated that he lost \$7000 through dealing with bunko men in an asserted fake stock scheme. This testimony was stricken out. The other motions, including seven for directed verdicts by the court or not guilty in each of the seven counts against the defendant, were denied. Dep. Dist. Atty. Stafford and Keyes argued for the prosecution and Paul Schenck for the defense. It was stated the trial will last about a week longer. The jury was excused until today, when the defense will begin its case.

PLAN UPSET IN HOUSE.

Effort to Secure Year's Salary for Van De Water's Widow Fails.

The plan of Congressman Osborne to secure to the widow of Congressman-elect Van De Water the customary payment of one year's salary, or \$7500, was upset in the House yesterday by Congressman Byrnes of Tennessee, who made a point of order against the amendment, stating that the death of Congressman-elect Van De Water occurred before the beginning of the session to which he had been elected and that, had his death occurred after March 4, the amendment might have been in order and proper. So far as the House is concerned, this ends the matter, but Congressman Osborne will attempt through Senator Shortridge to have the amendment inserted when the deficiency appropriation bill reaches the Senate, Washington advises say.

BULLETIN.

BERLIN, May 26.—K insurgents have captured the coal capital of after bloody fighting with the Germans.

BY L. C. WALTER. (Copyright, Charles Scribner's Sons.) WITH THE INSURGENTS IN KATOWITZ—Children are dying for want, and the men and women, the coal capital of the world, are in the grip of starvation as a result of coercive measures by Dictator Korfany. The railway authorities are forcing control of coalmines. After forty-eight hours in the hospitals found their food cut off by the insurgents. The lack of winter clothing for the people in the streets was made worse by the lack of coal. The authorities have made it impossible to obtain a supply of coal for the hospitals and the people.

MOTHERS IN DESPAIR—The mothers with infants in their arms are in despair. They are in the streets with their babies and buckets. They are crying for help. They are in the streets with their babies and buckets. They are crying for help. They are in the streets with their babies and buckets. They are crying for help.

NEWS IS SCARCER—With the telephone, telegraph and mail service discontinued, the only news of Germany is in the form of rumors.
